Proposed Cancellation of NSP-137

Attention: Mr. E. F. Motter

Gentlemen:

On June 8, 1955, Administrative Order NSP-137 was issued for a 160-acre NSP in the Eumont Gas Pool for your State "AR" well No. 1 in Section 2, Township 20 South, Range 37 East.

On October 25, 1956 you requested an Administrative Order to flare gas from the subject well due to reclassification and assignment of an oil allowable on October 15, 1956. This order will be issued as NFO-301 on November 13, 1956 unless there is objection.

Please inform us as to why NSP-137 should not be cancelled on November 13, 1956 when NFO-301 is issued.

Very truly yours,

Re: Proposed NSP-137

Dear Mr. Rieder:

We have a copy of a letter in the file for the Cities Service Oil Company's State AR #1 2-20-37 from you to that company concerning their application for an NSP order on this well. In this letter you state that your office will withhold any action on this until further tests showed that this well should be classified as a gas well.

We have received a Form C-104 in this office today requesting a gas allowable on this well and reporting a Gas Oil Ratio of 110,500-1. The operator has requested that you issue this NSP on the basis of these tests, since connection has already been made to Permian Basin Pipeline Co.

Gentlemen:

Reference is made to your application for approval of a 160-acre non-standard gas proration unit in the Eumont Gas Pool, consisting of SW/4 of Section 2, Township 20 South, Range 37 East, Lea County, New Mexico, to be assigned to your State "AR" Well No. 1.

Information available at this office indicates that your State "AR" Well No. 1 had a gas-oil ratio on the initial potential test of 78,600-1. Therefore, as you know under the provisions of Order R-520, this well would be classified as an oil well and could receive no more than 40 acres.

It is my understanding that it is the intention of Cities Service Oil Company to conduct further tests on this well to determine the gas-oil ratio as soon as a pipeline connection to this well has been made.

This office will withhold any action on proposed NSP-137 until such time as we receive the results of this further testing.

Re: Application of Cities Service Oil Company for approval of a non-standard gas proration unit embracing the SW/4, Sec. 2-20S-37E, Eumont Gas Pool, Lea County, New Mexico.

Gentlemen:

Comes now Cities Service Oil Company and respectively requests the Oil Conservation Commission to approve a non-standard gas proration unit of 160 acres, consisting of the SW/4, Section 2-20S-37E, in the Eumont Gas Pool, Lea County, New Mexico, and in support of the application, wishes to state the following:

1. The Cities Service Oil Company's State "AR" No. 1, located 1980' from south and west lines of Section 2-20S-37E, has been completed as a gas well in the Eumont Gas Pool, Lea County, New Mexico. The producing horizon is the Queen formation through open hole from 3522' to 3820', total depth.
2. It is requested that a non-standard gas proration unit of 160 acres embracing the SW/4 of Section 2 be assigned to this well.
- ✓ 3. The State "AR" No. 1 meets all spacing requirements of Order R-520 for a non-standard 160 acre gas proration unit.
4. A plat is attached showing the above described lands.
5. All operators in Section 2 have been provided copies of this application and waivers to send to the Conservation Commission should they have no objection.

Respectfully submitted,
