Dear Mr. Hudgens:

Reference is made to your application for a 240-acre non-standard gas proration unit consisting of the NE/4, W/2 SE/4 of Section 36, Township 21 South, Range 35 East, Lea County, New Mexico. This unit was to have been ascribed to your State Well No. 1, located 1980 feet from the North line and 660 feet from the East line of said Section 36.

I regret to inform you that this office is in receipt of an objection to the above described 240-acre unit. This objection was made by the Charm Oil Company of Artesia, New Mexico.

Should you still desire to form the above described 240-acre unit, it will be necessary for you to have a hearing before the Commission. I wish to advise you that for your application to be given consideration at our regular August 17th hearing, it will be necessary for your application to be filed by July 20, 1955, otherwise it will be placed on the docket for the September 15th hearing.

Very truly yours,

PROPOSED NSL \_\_\_\_\_

Dear Mr. Macey:

I have examined the application dated 6/16

and my recommendations are as follows:

Wait until well is completed. The lower Yates will probably be
