Unit F, Section 36-30N-5W

Dear Ms. Tafoya:

Reference is made to the following:

(a) your application (**administrative application reference No. pKAA09-15936769**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on June 8, 2009, and

(b) the Division's records pertinent to this request.

ConocoPhillips Company [OGRID 217817] (ConocoPhillips) has requested to drill the above-referenced well at an unorthodox gas well location described above in the caption of this letter. The W/2 of Section 36 will be dedicated to this well in order to form a standard 320-acre, more or less, gas spacing unit in the Blanco Mesaverde Gas Pool (72319) and in the Basin Dakota Gas Pool (71599). Spacing in the Blanco Mesaverde Gas Pool is governed by Rules I.A and I.C of the Special Rules and Regulations for the Blanco-Mesaverde Gas Pool, as amended by Order No. R-10987-A(1), effective December 2, 2002, which generally provide for 320-acre units, with wells located at least 660 feet from a unit outer boundary. Spacing in the Basin Dakota Gas Pool is governed by Rules II.A and II.C of the Special Rules and Regulations for the Basin-Dakota Gas Pool, as most recently amended by Order No. R-10987-B(2), which also generally provide for 320-acre units, with wells located at least 660 feet from a unit outer boundary.

This location is less than 660 feet from the eastern unit boundary.

Pursuant to the authority conferred by Division Rule 15.13.B, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 5.9.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.
