Subject: Application for Exception to
Rule 2 and 5 (a) Order No. R-520,
Stanolind Oil and Gas Company
State "I" Well No. 2, Eumont
Field

Mr. W. B. Macey
New Mexico Oil Conservation Commission (3)
P. O. Box 871
Santa Fe, New Mexico

Dear Sir:

incl. NSL approval if necessary

Under the provisions of Commission Order No. R-520, Rules 3 and 5 (b), delegating the Secretary of the Commission authority to grant exceptions to the requirements of Rule No. 2 and 5 (a) without notice and hearing for an unorthodox location and non-standard gas proration unit, Stanolind Oil and Gas Company hereby applies for an exception to the aforementioned two rules for State "I" Well No. 2, Eumont Field, presently being recompleted as a dual oil-gas under N.M.O.C.C. Order No. DC-208.

In support of the above application, the following data are furnished:

Concerning the exception to Rule No. 2, we wish to state the following:

- (A) The unorthodox location was occasioned by the recompletion of a well previously drilled to another horizon.
- (B) All operators within a 1980' radius of the subject well have been furnished a copy of this application.

With regard to the exception to Rule No. 5 (a), we wish to state the following:

- (A) That the proposed non-standard gas proration unit of 80 contiguous acres consists of the N/2 of the NW/4, Section 22, T-21-S, R-36-E.
- (B) That the proposed non-standard gas proration unit lies wholly within a single governmental section.

- (C) That the entire proposed non-standard gas proration unit may reasonably be presumed to be productive of gas.
- (D) That the length or width of the proposed non-standard gas proration unit does not exceed 5280'.
- (E) That the entire proposed non-standard gas proration unit lies within the horizontal limits of the Eumont Gas Pool.
- (F) That by copy of this letter of application, all operators owning interest in the section in which the non-standard gas proration unit is situated and which acreage is not included in said non-standard gas proration unit and all operators owning interest within 1500' of the well have been notified by registered mail of this application as shown on attached mailing list.

A plat showing acreage to be dedicated, well location and offset ownership is attached. At present, arrangements are being negotiated for unitization with other operators in forming a 160 acres proration unit. When completed, application will be made for such unit in the prescribed manner.

Yours very truly,

Ralph L. Hendrickson
