Subject: Application for Non-Standard Gas Unit. Tide Water Associated Oil Company's J.H. Day #1, Jalmat Gas Pool, Lea County, New Mexico

Attention: Mr. W.D. Macey, Secretary

Gentlemen:

The Commission has reclassified the Tide Water Associated Oil Company's J.H. Day Well No. 1 as a Jalmat Pool Gas Well and will remove it from the Jalmat Oil proration schedule March 1, 1956. By this letter Tide Water requests the Commission to grant a 40 acre non-standard gas proration unit in the Jalmat Pool under Rule 5 (b) for this well. The following reasons justify approval of this request.

1. Applicant seeks a non-standard gas proration unit consisting of the NE/4 of NW/4 of Section 6, Township 22 South, Range 36 East, NMPM, Lea County, New Mexico, and the allocation of an appropriate gas allowable to said unit.
2. The well to which applicant seeks to have the allowable granted is the J.H. Day Well #1, located 660' from the North Line and 1980' from the West Line of said Section 6. All of the requested gas unit lies wholly within a single governmental section.
3. The attached plat shows the acreage to be dedicated outlined in red, the well location, and offset ownership.
4. The offset operators have been notified of this application by a copy of the same by registered mail. These operators are listed below:
 - a. Cities Service Oil Company
 - b. Gulf Oil Corporation
 - c. Two States Petroleum Company
 - d. Continental Oil Company
5. The granting of this non-standard proration unit will not adversely affect the correlative rights of any offset owners and will protect the correlative rights of the applicant and prevent waste.
6. The entire proposed non-standard gas proration unit is productive of gas. This statement is justified by the production history of the J.H. Day Well #1.

The Tide Water Associated Oil Company requests the Oil Conservation Commission to grant an administrative 40 acre non-standard proration unit for their J.H. Day Well #1.

I hereby certify that the information given above is true and complete to the best of my knowledge.
