February 10, 1989

Mr. William LeMay
New Mexico Oil Conservation Division
Post Office Box 2088
Santa Fe, New Mexico 87504

Dear Mr. LeMay:

This is a request for administrative approval for a non-standard proration unit for a gas well location in the Basin Fruitland Coal Pool.

Meridian Oil Inc.'s Day #202 is located at 865' from the North line and 1055' from the West line of Section 18, T-29-N, R-8-W, San Juan County, New Mexico.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

A plat showing the proposed well location and configuration of Section 18, along with an ownership plat, are attached.

Sincerely yours,

Peggy Bradfield

encl.

WAIVER

_____ hereby waives objection to Meridian Oil Inc. application for a non-standard proration unit for their Day #202 as proposed above.

NSP-1196

Attention: Josh C. Fu

Administrative Order NSP-1570(L)(SD)

Dear Mr. Fu:

Reference is made to your application of March 13, 1989, for a 320-acre non-standard gas proration unit consisting of the following acreage in the Eumont Gas Pool:

LEA COUNTY, NEW MEXICO
TOWNSHIP 20 SOUTH, RANGE 37 EAST, NMPM
Section 21: W/2

Said unit is to be simultaneously dedicated to the following three existing wells all on the W.C. Roach Lease in the W/2 of said Section 21:

Well No. 1 located 330 feet from the North and West lines (Unit D);

Well No. 6 located 660 feet from the North and 1980 feet from the West line (Unit C); and,

Well No. 7 located at a standard gas well location for the proposed unit, 1980 feet from the South and West lines (Unit K).

It is my understanding that the Eumont Gas Pool underlying the W/2 of said Section 21 is presently developed by two 160-acre non-standard gas spacing and proration units, both authorized by Division Administrative Order NSP-1196. The NW/4 being simultaneously dedicated to the W.C. Roach Wells No. 1 and 6 and the SW/4 being dedicated to the W.C. Roach Well No. 7.

The W.C. Roach Wells No. 1 and 6 are located at unorthodox gas well locations for the proposed 320-acre unit (Rule 2(b)4 of the Special Rules and Regulations for the Eumont Gas Pool, as promulgated by Division Order No. R-8170, as amended); however the No. 1 well was drilled and completed prior to the creation of the Eumont Gas Pool and its location is therefore authorized under the provisions of Rule 2(b)2 of the Eumont Special Rules. At this time the location of the Well No. 6 is hereby approved pursuant to Rule 2(c) of said Order No. R-8170, as amended.

Administrative Order NSP-1570(L)(SD)
ARCO Oil and Gas Company
April 5, 1989
Page 2

Furthermore, by authority granted me under the provisions of Rule 2(a)4 of said Order No. R-8170, the above-described 320-acre gas proration unit is hereby approved.

Sincerely,

for William J. LeMay
Director

WJL/MES/ag

Dear Mr. LeMay:

This is a request for administrative approval for an unorthodox gas well location in the Basin Fruitland Coal Pool.

It is intended to locate the Meridian Oil Inc. Sharp #800 at 1250' from the North line and 2380' from the East line of Section 18, T-28-N, R-8-W, San Juan County, New Mexico.

Largo Wash, Blanco Wash, pipelines, the NAPI irrigation tunnel and terrain makes this location necessary.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Plats showing the proposed well location and the terrain in Section 8, along with an ownership plat, are attached.

Sincerely yours,

Peggy Bradfield
