Re: Proposed NSP 278  
Proposed NSL           

Gentlemen:

I have examined the application dated 6/12/56  
for the Continental Oil Co. Lockhart A-18 #1 18-21-36  
Operator Lease and Well No. S-T-R

and my recommendations are as follows:

O.K.---C.M.R.

Although this office has no logs, from depth & datum intervals, the #1 well  
has the Queen open as gas & the #2, #5 & #4 have Queen oil. Recommend hearing  
to prove that all acreage is prodjctive of dry gas. The #3 well is a Yates gas  
well & no danger exists under present dedication. R. F. M.

Yours very truly,

OIL CONSERVATION COMMISSION
