Re: IN THE MATTER OF APPLICATION OF SKEELLY OIL COMPANY FOR AN ADMINISTRATIVE ORDER GRANTING PERMISSION TO DUAL COMPLETE ITS E. T. JOHNS WELL NO. 1 IN THE JALMAT GAS POOL AND THE LANGLIE-MATTIX OIL POOL AND FOR AN ORDER FOR A 40 ACRE NON-STANDARD GAS PRODUCTION UNIT.

Gentlemen:

Comes now SKEELLY OIL COMPANY, a Delaware Corporation with offices in Tulsa, Oklahoma, and Hobbs, New Mexico, hereby petitioning the Secretary of the New Mexico Oil Conservation Commission for administrative approval for an order granting permission to dual complete its E. T. Johns Well No. 1 as a gas well in the Jalmat Gas Pool and an oil well in the Langlie-Mattix Oil Pool and also for an order for a 40 acre non-standard gas production unit in the Jalmat Gas Pool, Lea County, New Mexico, and in support thereof does state:

1. That the petitioner is the operator of an oil and gas lease confined by the NW/4 SW/4 Section 21, Township 21, South, Range 37 East N.M.P.M., Lea County, New Mexico, and concerns but a single royalty owner.
2. That the petitioner's E. T. Johns No. 1 is located 1980' from the south line and 660' from the west line of the section and was completed December 1937, as a Langlie-Mattix oil well.
3. That the petitioner will dually complete its Johns No. 1 in a manner described below.
 - a. Perforate the lower Yates 3004'-3050' for Jalmat gas.
 - b. Run 2" tubing with a Baker Model "D" Retainer Production Packer to be set at around 3060' so as to segregate the two producing intervals.
 - c. Produce the Langlie-Mattix oil from open hole 3180'-3575' through the 2" tubing and the Jalmat gas through the tubing-casing annulus.

June 29, 1956

4. That the manner in which the petitioner has set out to complete the proposed dual is both mechanically feasible and practical and conforms to the Commission's policies and specifications as pertaining to the dual completion of dual gas and oil wells in the State of New Mexico.
5. That a diagrammatic sketch showing the producing intervals anticipated and the physical equipment to be used in dualing this well is hereto attached.
6. That the granting of this application for permission to produce this well as a dual completion is in the interest of conservation and the protection of correlative rights.
7. That the above described acreage is within the horizontal limits of the Jalmat Gas Pool, and by virtue of its offset production can be assumed to be productive of gas.
8. That all lands described above and contained within the limits of the proposed proration unit, are contiguous and lie within the limits of a single legal subdivision (section) of the U. S. Public Land Survey.
9. That a plat showing the above described lands and all offset properties, indicating well locations and lease ownership to the best of our knowledge, is hereto attached.
10. That all offset operators are hereby notified by a copy of this application.

WHEREFORE, the petitioner requests that, in the interest of conservation and protection of correlative rights, the Secretary of the Commission grant an order pursuant to Rule 112-A, Order No. R-316, and Rule 5(a), Order No. R-520 by which the petitioner may dually complete its E. T. Johns No. 1 in the manner described above and may establish a non-standard, 40 acre gas proration unit.

I hereby certify that the information given above is true and complete to the best of my knowledge.

Respectfully submitted,

SKELLY OIL COMPANY

J. N. Dunlavey,
District Superintendent.
