Re: Continental Oil Company  
Application for authority  
to effect a Monument oil-  
Eumont gas dual completion  
on its State C-30 well No. 1  
located in Section 30, T19S,  
R37E, Lea County, New Mexico;  
and for approval of a 160-acre  
non-standard gas proration  
unit consisting of the NW <sup>1/4</sup>  
Section 30, T19S, R37E.

*157 ac

of NW 1/4*

Gentlemen:

Continental Oil Company respectfully requests admin-  
istrative approval under the provisions of statewide rule 112-A  
to dually complete in the Monument oil pool and Eumont gas pool  
its State C-30 well No. 1 located 660 feet from the North line  
and 1980 feet from the West line of Section 30, T19S, R37E,  
NMPM, Lea County, New Mexico. A plat attached hereto shows  
the manner in which the dual completion is proposed to be  
accomplished. The Eumont gas will be produced through the  
casing-tubing annulus while Monument oil is being produced  
through the tubing. The fluids from the two reservoirs will  
be completely separated by appropriate packers, and the well  
will be so equipped that the reservoir pressure of each of  
the two pools may be determined separately. Well head equip-  
ment will include all necessary connections to permit accurate  
measurement of fluids produced by each pool as may be required  
by the Commission.

We further respectfully request approval under the  
provisions of Rule No. 5 (b) of the Special Rules and Regula-  
tions for the Eumont Gas Pool of Order No. R-520 of a <sup>157</sup> 160-acre  
non-standard gas proration unit consisting of the NW <sup>1/4</sup> of the  
said Section 30 to be allocated to the said well No. 1. In  
support of this request we should like to point out that the  
proposed unit conforms with the requirements of said Rule 5

*157  
lot 142 of NW 1/4*

(b) in all respects as follows:

1. Said unit consists of contiguous quarter-quarter sections (and/or lots).
2. Said unit lies wholly within a single governmental section.
3. The entire proposed unit may be reasonably presumed to be productive of gas.
4. The length or width of said unit does not exceed 5,280 feet.
5. Copies of this application have been furnished this date by registered mail to all offset operators and all operators within 1,500 feet of said well, as required by the provision of said Rule 5 (b).

A plat is attached hereto showing to the best of our knowledge and belief the proposed unit, the location of the No. 1 well and other wells on the lease, offset wells and ownership thereof.

The granting of this application is in the interest of preventing waste and the protection of correlative rights.

In view of the facts set out herein it is respectfully requested that the Commission enter an order approving the proposed dual completion and non-standard proration unit both as described above.

Yours very truly,

R. L. ADAMS  
Division Superintendent  
of Production  
New Mexico Division

STATE OF NEW MEXICO    )  
                                  )    ss.  
COUNTY OF CHAVES        )

R. L. Adams, being first duly sworn on behalf of the applicant in the above application, says: That he is the Division Superintendent, of applicant, and as such is authorized to make said application; that he has read the foregoing application, knows the contents thereof, and that the same are true as he is reliably informed and believes.
