Attention: T. A. H. Carter, Jr.
Secretary-Treasurer

Continued:

The writer respectfully requests that a be granted a permit to drill complete the 1000' to 12 as a gas well from the 1000' zone and as an oil well from the Seven 1' zone and also in the 1000' zone. In support of this application the following information is submitted:

1. The 1000' to 12 well is located 1,000' from the west line and 1,000' from the north line of Section 22, Twp. 21S, R. 2E, La Brea County, New Mexico.
2. Said well is to be drilled to a depth of approximately 3,500', at which depth both the 1000' gas and the Seven 1' zone oil and will be penetrated. Five and one-half inch casing is to be run at total depth.
3. The Seven 1' zone will be penetrated from approximately 2,500' to 3,000'. This interval will be produced as an oil well through the tubing.
4. A production permit will be obtained for the 3,500' so as to operate the producing zones.

COPY

5. The later zone will be perforated at approximately 2,250' to 2,350'. This interval will be produced as a gas well through the casing.
6. The dual completion of this well will be in the interest of conservation and the mechanics of the dual completion are feasible and practical.
7. A non-standard gas production unit of 200 acres comprising one 3/4 of Section 22, Twp. 21S, Rge. 30E, Lea County, New Mexico, will be requested.
8. The above described gas production unit lies wholly within a single governmental section and consists of contiguous 40 acre tracts.
9. The entire proposed production gas unit may be reasonably produced to be productive of gas.
10. Copies of this application have been furnished all affected operators by certified mail.
11. Attached is Form O-123, location plat and diagrammatic sketch of proposed dual completion.

I request that the Oil Conservation Commission issue the necessary order permitting the dual completion of said well and permitting the assignment of the non-standard gas production unit.

I hereby certify that the information given above is true and complete to the best of my knowledge.

Yours very truly,

J. H. Moore
