Attention Mr. A. L. Porter, Jr.
Secretary - Director

Gentlemen:

We respectfully submit this application and request administrative approval, under the provisions of Order No. R-1670 Rule 5 (C) of the Special Rules and Regulations for the Blinebry Gas Pool, of the formation of a 120-acre non-standard gas proration unit consisting of the N/2 of SW/4 and SE/4 of SW/4 of Section 22, T-21-S, R-37-E. This unit is for our A. T. Turner well No. 13 located 880 feet from the south line and 168.5 feet from the west line of Section 22, T-21-S, R-37-E, Lea County, New Mexico.

The proposed 120-acre non-standard gas proration unit will consist of the N/2 of SW/4 of Section 22 which is currently assigned to our A. T. Turner No. 12, a temporarily abandoned Blinebry gas well, and the SE/4 of SW/4 of Section 22 which is assigned to our A. T. Turner No. 11, also a temporarily abandoned Blinebry gas well. Neither of these wells is connected to a gas sales pipeline.

In support of our request, we would like to point out that the proposed unit conforms with the requirements of Rule 5 (C) in all respects as follows:

1. Proposed non-standard gas proration unit consists of contiguous quarter-quarter sections.
2. Proposed non-standard gas proration unit lies wholly within a single governmental quarter section.
3. The entire proposed non-standard gas proration unit may be reasonably presumed to be productive of gas.

4. Copies of this application are being sent by
Certified Mail to all offset operators.

A plat is attached hereto showing to the best of our knowledge the proposed unit, the location of the Turner well No. 13 and other wells on the Lease, and offset wells and ownership thereof.

In view of the facts set out herein, it is respectfully requested that the Commission approve the formation of the non-standard gas unit for Shell Oil Company's A. T. Turner well No. 13.

Yours very truly,

For: J. E. R. Sheeler
Division Production Manager
