Gentlemen:

Pan American respectfully submits application for a non-standard proration unit and an unorthodox well location to cover acreage to be dedicated and the occurrence of an unorthodox well location due to the reclassification of the State "CK" Well No. 3 from an oil to a gas well.

The non-standard proration unit requested encompasses the E/2 SW/4 of Section 19, T-21-S, R-37-E, NMPM, Lea County, New Mexico. It consists of contiguous quarter-quarter sections and can reasonably be presumed to be productive of gas.

During January 1970, the Blinebry zone ceased producing oil with gas necessitating the obtainment of an unorthodox well location for the State "CK" Well No. 3, located 330' FSL and 1549' FWL of Section 19, T-21-S, R-37-E, NMPM, Lea County, New Mexico.

By certified mail copies of this application are being furnished all offset operators as required by Rule 104, II.

Yours very truly,

V. E. Staley
Area Superintendent
