Re: Request for Reduction of Gas Proration Unit
Burleson & Huff - Hadfield Lease
Lea County, New Mexico

120 acre unit - Standard proration unit

Gentlemen:

to be held in abeyance

Burleson & Huff is the owner of the above lease insofar as it covers the E/2 of the SE/4 and SW/4 of the SE/4 of Section 21 and the NE/4 of the NE/4 of Section 28, T-25-S, R-37-E, Lea County, New Mexico down to a depth of 3,750', which depth is well below the base of the Yates-Seven Rivers formation. All of the above described land is included in and comprises the entire proration or spacing unit for production of Yates-Seven Rivers gas in the Jalmat Gas Field from the two wells situated thereon, being the Burleson & Huff Hadfield No. 1 and No. 2 wells. The wells produce very little gas, and it is no longer necessary that the NE/4 of the NE/4 of Section 28, which is located in a section of land different from the remaining 120 acres in said spacing unit, be part of the unit in order to produce said wells at their maximum allowable rate. We therefore request that you reduce the size of the spacing unit for production of gas from the No. 1 and No. 2 Hadfield wells in the Jalmat Gas Field so that such unit shall consist only of the E/2 of the SE/4 and SW/4 of the SE/4 of Section 21 and so that the NE/4 of the NE/4 of Section 28 shall be deleted from such spacing unit.

We are enclosing three (3) copies of a plat showing the location of the Hadfield No. 1 and No. 2 wells and the proposed 120 acre spacing unit which is colored in yellow. The entire present 160 acre unit is outlined in red. Also shown on the plat are the offsetting operators to the present 160 acre spacing unit.

*E/2 SE/4 and
SW/4 SE/4*
