If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
Leak was discovered by Sid Richardson, line was isolated and repaired.

WATER @ 120'

Describe Area Affected and Cleanup Action Taken.*
This leak crosses Sec 24 and Sec 25, out in the pasture in sand dunes. We were unable to get a vacuum truck to the leak site. A road has been built to get to leak area and will be taken up once location is cleaned. NMOCD guidelines will be followed to close.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
