Gentlemen:

BTA Oil Producers proposes to drill the 689C LCH lease, Well #3, Bagley, North (Penn.) Field, Lea County, New Mexico, at the following location:

Unit Letter "M", Section 31, Township 11-S,
Range 33-E, 660' FSL & 510' FWL

Field rules for the Bagley, North (Penn.) field requires 80 acres to be assigned to a standard proration unit, but also provides for non-standard unit development. BTA Oil Producers 689-C LCH #2 currently has Unit "M" dedicated as part of its standard unit. BTA proposes to reduce the acreage assigned to Well #2 to 40 acres and release Unit "M" to form a standard unit for Well #3. See attached plats.

BTA Oil Producers respectfully requests your waiver as an offset operator to allow BTA to assign a non-standard unit to well #2. Should this meet with your approval, please sign and return the original and one copy of the attached waiver to BTA Oil Producers. The remaining copy may be retained for your files.

Your prompt attention to this matter is appreciated.

Yours very truly,

Bob K. Newland
