David,

Attached are unorthodox well location applications for the proposed WBDGU 1829 031O and the Mitchell 1830 181B wells located in Harding County, New Mexico. There is a PDF letter and separate PDF plat for each well. I have done my best to prepare these according to the regulations, but if there are mistakes, please let me know and I will correct immediately.

For your information, Rita Smith will withdraw the application to drill the Mitchell 1830 111M. We intend to restake this as the Mitchell 1830 111L and a new application will be filed. Reliant has advised they will withdraw it's objection to the 1830 111M once the new location has been staked and a permit has been applied for.

If you have any comments or questions, please contact me.

RE: Unorthodox Well Location Application
Mitchell 1830 181B
Harding County, New Mexico

Dear Mr. Brooks:

In compliance with 19.15.15.13 NMAC, Hess Corporation (Hess) as operator of the proposed Mitchell 1830 181B requests administrative approval of our application for permit to drill the subject well to be located in the NW/4NE/4 of Section. 18, T18N, R30E. Hess cannot drill at a legal location in the SW/4NE/4 of Section 18 due to topographical considerations.

Enclosed is a plat showing the spacing unit, being all of section 18, T18N, R30E, the drill site located in the unorthodox location of the NW/4NE/4 of Sec. 18 and the adjoining affected units being all of Section 7, the SW/4 of Section 8 (subject to 160 acre spacing) and all of Section 17.

The affected parties are:

1. All of Section 7, the SW/4 of Section 8 and all of Section 17 excluding 1.01 acres in the southwest corner – **Hess Corporation** – 100%
2. 1.01 acres in the southwest corner of Section 17: **Hess Corporation** – 56.25%; **F&F Family Limited Partnership** – 18.75 % - unleased; heirs of **Charles and Emma Field** – 25% - unleased

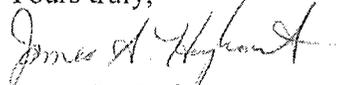

I, James S. Hughart, Land Manager of Hess Corporation attest that Hess waives its own right to object to this unorthodox well application. Further, I attest that on December 14, 2009 I sent a certified letter to F&F Family Limited Partnership (F&F) along with the copy of the application for permit to drill and other particulars advising F&F that it could object to the application by filing notice with the Oil Conservation Division in Santa Fe within 20 days of its receipt of the certified letter which was received

by Mike Fitzgerald, President, on December 18, 2009 (copy of green certified receipt enclosed). Finally, I attest that I had the Union County Leader in Clayton, New Mexico file a legal notice on December 16, 2009 to Charles P. Field and Emma Field or their heirs or devisees (copy of affidavit of publication is enclosed) advising that Hess had filed an application for permit to drill the well at an unorthodox location and that anyone wishing to object to the Commission in Santa Fe should do so within 20 days of the filing of the notice.

Also enclosed is an Administrative Application Checklist.

If you have any comments or question, please contact me.

Yours truly,

James S. Hughart,
Land Manager

NOTICE

To: Charles P. Hess, Dallas Street, Houston, Texas 77002; Emma Field, or their heirs or devisees: Hess Corporation, Dallas Street, Houston, Texas 77002; and the New Mexico Conservation Division. Notice is hereby given that an application for a gas well located in the East, NMPM, Harding County, New Mexico, is being filed with the Division of Conservation. The well is located approximately 1.650 feet from the north line and 1,200 feet from the east line (the application with the date this notice is published) of Section 18, Township 18 North, Range 30 East, NMPM, Harding County, New Mexico. If you object to the application, you must file a written request for hearing with the Division of Conservation within 20 days of the date this notice is published. The Division of Conservation is located at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505. Failure to object will preclude you from contesting this matter at a later date. The well is located approximately 10 miles east of Mosquero, New Mexico. Division address is 12-16

From: Brooks, David K., EMNRD
Sent: Wednesday, January 13, 2010 10:09 AM
To: 'JHughart@hess.com'
Subject: Mithchell 1830 Well No.

Dear Mr. Hughart

I have received your NSL application for the referenced well. However, much of the information I will need to process this application is apparently not included.

First and foremost, your letter does not state the proposed location, nor does it state the pool or formation in which the well will be completed, information that is necessary to ascertain what spacing rules apply. Also, I will need a copy of the Form C-102 filed with the APD, which depicts the proposed location and the unit that will be dedicated to the proposed well.

I am inclined to infer from the plat submitted that Hess is the operator of the adjoining units in Sections 7 and 18. However, there is no statement in your application concerning working interests in those tracts. Please state if Hess owns 100% of the working interest in the adjoining tracts in Sections 7 and 18, and, if not, whether working interest ownership for those tracts is identical to working interest ownership of the NE/4 of Section 18. We need this information in order to be sure that all required notices of this application have been provided.

Thanks in advance for your assistance.

RE: Unorthodox Well Location Application
Mitchell 1830 181B
Harding County, New Mexico

Dear Mr. Brooks:

In compliance with 19.15.15.13 NMAC, Hess Corporation (Hess) as operator of the proposed Mitchell 1830 181B requests administrative approval of our application for permit to drill the subject well to be located 1,200' FNL and 1,650" FEL (NW/4NE/4) of Section. 18, T18N, R30E. Hess cannot drill at a legal location in the SW/4NE/4 of Section 18 due to topographical considerations.

A copy of the C-102 filed with the APD is enclosed. The well is to be drilled to a depth of 2,139' to test the Lower Tubb formation. Based on our records, Order # R-7737 covering the Tubb Formation in West Bravo Dome Field is in effect for Section 18 providing for 640 acre spacing. Hess has all of the mineral interest leased in this section and is the sole working interest owner of the leasehold. Upon the successful completion of the well as a producer of carbon dioxide gas, we will communitize Section 18 according to State Land Office regulations as we have previously done for other wells completed in the area.

Enclosed is a plat showing the spacing unit, being all of Section 18, T18N, R30E, the drill site located in the unorthodox location of the NW/4NE/4 of Sec. 18 and the adjoining affected units being all of Section 7 (subject to 640 acre spacing per R-7737), the SW/4 of Section 8 (subject to 160 acre spacing per R-7737) and all of Section 17 (subject to 640 acre spacing per R-7737). Hess owns 100% of the working interest in the Section 7 offsetting 640 acre unit and the 160 acre SW/4 of Section 8 offsetting unit. Hess owns 100% of the working interest in the 640 acre Section 17 unit excluding 1.01 acres in the southwest corner of the section, in which it owns 56.25% and the balance is unleased (see below for affected parties).

The affected parties are:

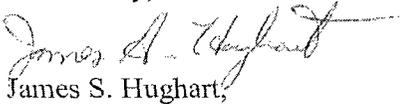

1. All of Section 7, the SW/4 of Section 8 and all of Section 17 excluding 1.01 acres in the southwest corner – **Hess Corporation** – 100%
2. 1.01 acres in the southwest corner of Section 17: **Hess Corporation** – 56.25%; **F&F Family Limited Partnership** – 18.75 % - unleased; heirs of **Charles and Emma Field** – 25% - unleased

I, James S. Hughart, Land Manager of Hess Corporation, attest that Hess waives its own right to object to this unorthodox well application as to its working interest in the three offset units mentioned above. Further and with regard to the 1.01 acre tract in the Section 17 offset unit, I attest that on December 14, 2009 I sent a certified letter to F&F Family Limited Partnership (F&F) along with the copy of the application for permit to drill and other particulars advising F&F that it could object to the application by filing notice with the Oil Conservation Division in Santa Fe within 20 days of its receipt of the certified letter which was received by Mike Fitzgerald, President, on December 18, 2009 (copy of green certified receipt enclosed). Finally, I attest that I had the Union County Leader in Clayton, New Mexico file a legal notice on December 16, 2009 to Charles P. Field and Emma Field or their heirs or devisees (copy of affidavit of publication is enclosed) advising that Hess had filed an application for permit to drill the well at an unorthodox location and that anyone wishing to object to the Commission in Santa Fe should do so within 20 days of the filing of the notice.

Also enclosed is an Administrative Application Checklist.

If you have any comments or question, please contact me.

Yours truly,

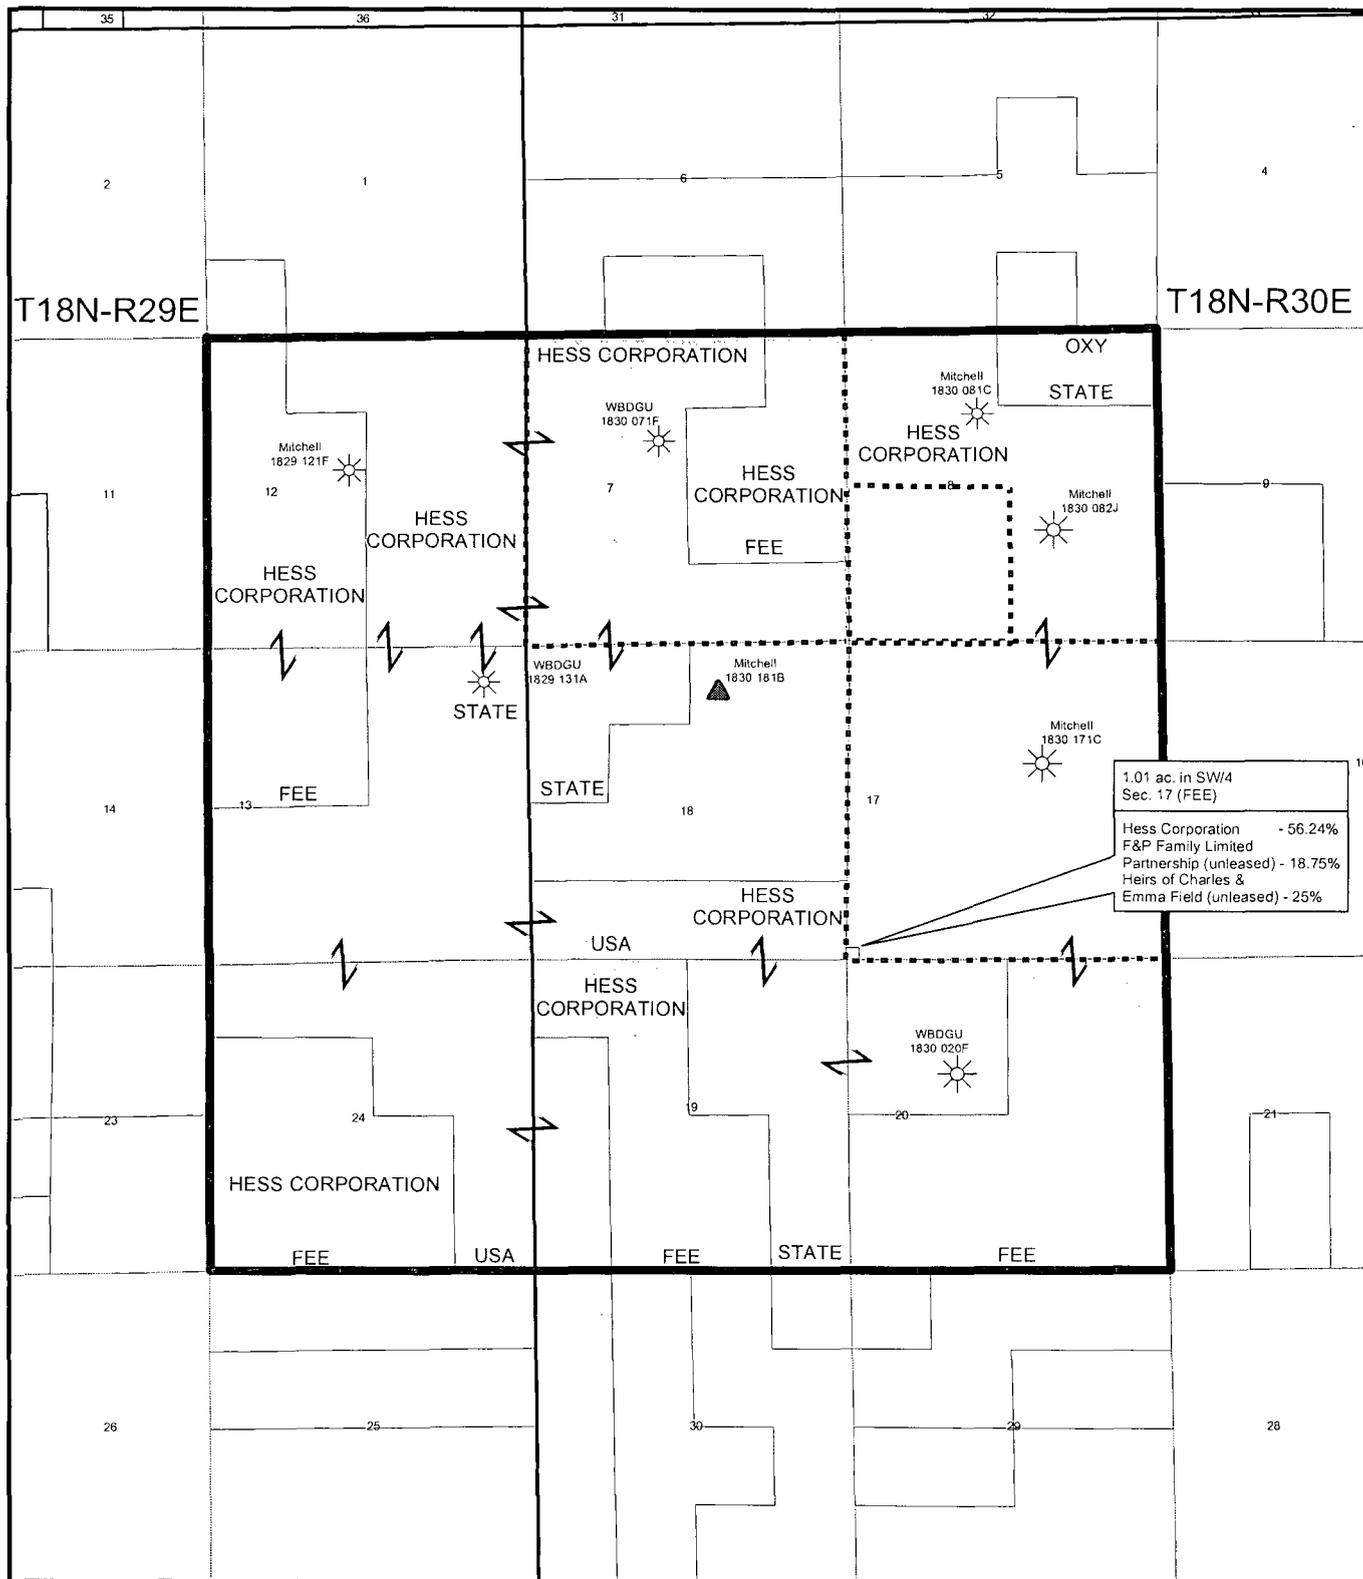

James S. Hughart,
Land Manager

David,

Thank you for your feed back and assistance with the non-standard location letters for the Mitchell 1830 181B and the WBDGU 1829 031O wells.

I believe I have addressed your concerns and have modified my letters accordingly. I have also included C-102's as you have directed. However, if there are still issues, I promise to stay on this until I get it correct. Thank you for your patience and please get back to me with any problems or concerns.

Thanks!

David,

I got your e-mail after I had left work yesterday.

Here is my e-mail of Jan. 13 where I re-submitted for both the 1830 181B and the 1829 031O. The latter 3 PDF's pertain to the 031O NSL application

Thanks again for your help! For your information, I expect to submit a NSL application for the newly staked 1830 111L later today. The previous location was objected to by Reliant. It has now been moved to the north to be legal from the south line and satisfy Reliant's objection.
