RE: JURISDICTION OF GW-173 AND GW-174

Mr. Duarte:

The Oil Conservation Division (OCD) has reviewed the information that El Paso submitted on March 5, 2010 on the jurisdictional issues concerning the permit renewal for two of El Paso's compressor stations that are located on the Navajo Nation Reservation. After meeting with Director Fesmire and our attorney, OCD has determined that the Navajo Nation EPA has sole jurisdiction over El Paso's compressor stations located on the Navajo Nation Reservation. Therefore, El Paso is not obligated to renew its discharge permits with OCD and OCD will close out discharge permits GW-173 and GW-174.

OCD will work closely with the Navajo Nation EPA on any environmental issues that may arise in the future.

If you have any questions, please contact me at 505-476-3488.

Sincerely,

Glenn von Gonten  
Acting Environmental Bureau Chief

**Re: Jurisdiction affecting El Paso Natural Gas Company's Gallup (GW-173) & White Rock (GW-174) Compressor Stations.**

Dear Mr. von Gonten:

This is follow-up to our conversation regarding the NMOCD's jurisdiction of the activities at the two subject facilities. In brief, the Navajo Nation's EPA (NNEPA) Water Quality & NPDES program had raised a concern regarding the NMOCD discharge plans for these two stations. Mr. Ronnie Ben, the Water Quality & NPDES Program Manager stated that these two facilities are located within the Navajo Nation and thus are jurisdictional under NNEPA water quality program or Federal NPDES. Mr. Ben indicated that they were open to having more conferences or a face-to-face meeting to resolve this matter.

We agreed to provide NMOCD with specific site details for these facilities and the NMOCD would, upon review of information, make a decision upon its jurisdiction. The initial indication was that it did not have authority to regulate the actions at these two sites. In summary, a map showing the location of these two stations is attached and the facility legal description for each site is as follows:

Gallup Station: NE/4 of Section 9, Township 19 North, Range 17 West, McKinley County, NM.  
Latitude: 35°, 53 Minutes, 42 seconds, North  
Longitude: 108°, 39 Minutes, 03 seconds, West  
NNEPA - Title V Operating Permit: NN OP 05-007, expires 12/30/2013.

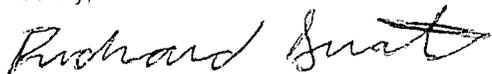

White Rock Station: Portion of NE ¼, Section 15, Township 23 North, Range 14 West, San Juan County, NM.  
Latitude: 36°, 13 Minutes, 33 seconds, North  
Longitude: 108°, 19 Minutes, 14 seconds, West  
NNEPA - Title V Operating Permit: NN OP 05-008, expires 12/30/2013.

In addition, these two facilities have current Title V Operating Permits (for air emissions) that are issued under the NNEPA Operating Permit Regulations. Those permit numbers are shown within the information above.

Mr. Glenn von Gonten – Environmental Bureau  
Gallup and White Rock

**Subject:** Jurisdiction of White Rock (GW-174) & Gallup (GW-173)  
**Attachments:** Jurisdiction of GW 173 & GW-174 on navajo.pdf

Greetings Glenn:

This letter will be mailed today. It is regarding the discussion we had last week regarding the NMOCD's jurisdiction within the Navajo Nation lands. A copy is also going to Ronnie at the NNEPA. I was working with Leonard Lowe to renew these last fall when this issue was raised by Ronnie.

I hope this can resolve this matter. If not, Ronnie was open to having a face-to-face meeting if necessary to continue to see your point of view.

Thank you and call or email me if you have questions or any concerns.
