NATURE OF RELEASE

Type of Release: Crude oil and produced water	Volume of Release: 5 Bbls of Produced water and 45 Bbls of Crude oil	Volume Recovered: 40 Bbls
Source of Release: Tank overflow	Date and Hour of Occurrence: 3/8/10 Approximately 2:30 p.m.	Date and Hour of Discovery: 3/8/10 4:30 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Randy, emergency NMOCD number	
By Whom? Tony Savoie	Date and Hour 3/9/10 12:04 p.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* A valve on the produced water tanks was left open while the operator was tending to other activities, the source of the overflow was corrected and a vacuum truck was dispatched to the area to remove the fluid inside of the earthen containment.

Describe Area Affected and Cleanup Action Taken.* The entire area of the earthen containment was covered with crude oil, approximately 4500 sq. ft. The free standing oil was removed and the saturated area around the tanks inside the containment was covered with dry to dirt to allow for normal operations to continue. Approximately 30,600 sq. ft. of pasture land was affected by a fine mist of crude oil due to the excessive winds that day. The affected vegetation was washed down with a nutrient and microblaze solution.

The Site remediation for the produced water and crude oil spill will follow the NMOCD guidelines for leaks and spills.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
