Re: Lankford No. 2
NW/4 NE/4 and S/2 NE/4
Section 25
T-23-S, R-36-E
Lea County, New Mexico
1. Simultaneous Dedication
to an Existing P. U.
2. Notice of Section 103
Infill Application

Gentlemen:

In the near future, we plan to file a C-101 and C-102 with the New Mexico Oil Conservation Division District I Office in Hobbs for permission to drill a new Jalmat gas well as a Section 103 infill well at an orthodox location consisting of 1980' FNL and 1980' FEL Section 25, T-23-S, R-36-E, Lea County, New Mexico. The subject well will be drilled on an existing 120-acre non-standard Jalmat (Gas) proration unit comprised of the NW/4 NE/4 and S/2 NE/4 Section 25. At the present, the subject 120-acre tract is dedicated to the Lankford No. 1 (G-25-23-36) which is a Jalmat (Gas) producer, and our newly proposed Lankford No. 2 will be simultaneously dedicated along with the existing Jalmat producer to the NW/4 NE/4 and S/2 NE/4 Section 25.

Therefore, we hereby file for administrative approval to simultaneously dedicate the new infill well (Lankford No. 2) to the existing 120-acre non-standard Jalmat (Gas) proration unit comprised of the NW/4 NE/4 and S/2 NE/4, T-23-s, R-36-E, Lea County, New Mexico, along with the Lankford No. 1.

Furthermore, if the proposed well is completed as a commercial producer, and in compliance with the Natural Gas Policy of 1978, an application will also be submitted to the New Mexico Oil Conservation Division to obtain administrative approval for the well as a Section 103 infill well.

Three copies of a land plat showing the location of the original Jalmat (Gas) well on the 120-acre proration unit plus the location of the proposed new infill well are also enclosed.

Mr. R. L. Stamets
October 4, 1983
