Attn: Mr. William J. Lemay

Dear Mr. Lemay:

Amerada Hess Corporation respectfully requests administrative approval to drill and complete the State 'U' Gas Com #3 at an unorthodox well location and simultaneously dedicate this well to the State 'U' Gas Com Eumont Gas Proration Unit. This location is unorthodox by virtue of being less than the required 1320' from an active well producing from the same horizon, the AHC State 'U' #2.

The AHC State 'U' Gas Com was approved as a non-standard proration unit approving approximately 240 acres consisting of the NW/4 and the E/2 of NE/4 Section 32, T-19S, R-37E. The proration unit was originally dedicated to the State 'U' Gas Com #1 located 1980' FNL and 660' FWL which has since been abandoned in the Eumont and recompleted in the Grayburg as the NMGSAU 1605. The second well, the State 'U' #2 located 990' FNL and 2160' FWL Section 32, T-19S, R-37E, was dedicated to this GPU under NMOCD Case No. 6436 / Order No. R-5956 and is actively producing from the Eumont.

Attached are the:

- 1) 'Application for Permit to Drill' (form C-101) w/ required BOP stack drawing
- 2) 'Well Location and Acreage Dedication Plat' (form C-102) depicting the AHC State 'U' Gas Com and its' dedicated producer(s)

Attached... (cont'd)

- 3) Acreage ownership plat depicting offset Eumont completions and their respective proration units
- 4) Name and address listing of offset operator(s)
- 5) Copy of notification letter and waiver mailed 'certified' to offset operators with certified mail receipts.

Your consideration of this application is appreciated.

Dear Mr. Lemay:

Amerada Hess Corporation respectfully requests administrative approval to drill and complete the State 'U' Gas Com #3 at an unorthodox well location and simultaneously dedicate this well to the State 'U' Gas Com Eumont Gas Proration Unit. This location is unorthodox by virtue of being less than the required 1320' from an active well producing from the same horizon, the AHC State 'U' #2.

The AHC State 'U' Gas Com was approved as a non-standard proration unit approving approximately 240 acres consisting of the NW/4 and the E/2 of NE/4 Section 32, T-19S, R-37E. The proration unit was originally dedicated to the State 'U' Gas Com #1 located 1980' FNL and 660' FWL which has since been abandoned in the Eumont and recompleted in the Grayburg as the NMGSAU 1605. The second well, the State 'U' #2 located 990' FNL and 2160' FWL Section 32, T-19S, R-37E, was dedicated to this GPU under NMOCD Case No. 6436 / Order No. R-5956 and is actively producing from the Eumont.

Attached are the:

- 1) 'Application for Permit to Drill' (form C-101) w/ required BOP stack drawing
- 2) 'Well Location and Acreage Dedication Plat' (form C-102) depicting the AHC State 'U' Gas Com and its' dedicated producer(s)

Attached... (cont'd)

- 3) Acreage ownership plat depicting offset Eumont completions and their respective proration units
- 4) Name and address listing of offset operator(s)
- 5) Copy of notification letter and waiver mailed 'certified' to offset operators with certified mail receipts.

Your consideration of this application is appreciated.

Sincerely,
