Dear Mr. Brooks:

Marbob Energy Corporation requests approval for the Rocket Federal #3H unorthodox location described above. The well is unorthodox because the Bureau of Land Management moved our original location (330' FSL 330' FWL) to this unorthodox location. The BLM moved the location due to surface issues. This puts the location 100' unorthodox to the west line of the SW/4SE/4.

Notice will be give to OXY USA INC., who is the operator of the affected proration unit(s) in the NE/4NE/4 of Section 9 T26S R29E. Marbob Energy Corp. is the operator of the N/2 of Sec. 10 T26S R29E and the E/2SE/4 of Sec. 4 T26S R29E. Enclosed is a copy of form C-102 showing the location and proposed proration unit. Also, enclosed is a map showing affected spacing unit(s).

Thank you for your help in this matter.

Sincerely,

William Miller  
Landman

Dear Mr. Mill

I have looked at the referenced applications.

For each of these horizontal wells, we need to know the footage location of the "penetration point" of the Bone Spring formation, as that term is defined in Rule 16.7.F.

Also, where the applicant is the operator of an affected spacing unit, Rule 4.12.A(2)(b) requires that notice be given to working interest owners unless working interest ownership in the affected unit is identical to that in the unit where the well will be located. In the #5H application, you have included proof of notice to Yates whom you indicate is a working interest owner in one or more of the affected units, but you have not expressly stated whether Yates is the only such working interest owner. In the #3H application, I find no statement concerning working interest ownership in the affected units.

We will appreciate your supplying the above-requested information.

Sincerely

Mr. Brooks,

The penetration point for both wells will be the same as the surface location.

As far as the working interest owners, notice will be sent and a copy furnished to you. The N/2N/2 of sec. 10 is Yates & Marbob. Yates has been notified. The NE/4 of sec. 9 is OXY, Yates, Marbob. Oxy has been notified already and I will send notification to Yates. The E/2SE/4 is all marbob. Thank you.
