Application of Apache Corporation for administrative approval of
an unorthodox well location:

40 acres – 1280’ FNL & 467’ FEL
Section 1, Township 20 South, Range 36 East, NMPM
Lea County, New Mexico

PRIMARY OBJECTIVES: Paddock

In support:

1. Apache Corporation (Apache) is the operator of the proposed **J R Phillips #11** well (**Exhibit 1**).
2. Pool rules that apply to the proposed location is the Monument; Paddock. The proposed unorthodox location encroaches on spacing unit 1H, which currently has one well producing from the aforementioned zone (**Exhibit 1**). The cumulative and daily production values are displayed on **Exhibit 2**.

API					Cum thru 12-09	Daily
30025	Op.	Well	Loc	Pool	O/G/W	O/G/W
04134	Apache Corp	J R Phillips #5	A	Monument; Paddock	205 / 0 / 0	4 / 1 / 2
04134	Apache Corp	J R Phillips #5	A	Monument; Abo	18 / 132 / 7	5 / 3 / 2
04134	Apache Corp	J R Phillips #5	A	Monument; McKee- Ellenburger	80 / 8,342 / 0	P&A'd
04136	Apache Corp	J R Phillips #7	H	Monument; Paddock	141 / 25 / 106	12 / 410 / 1,117
04136	Apache Corp	J R Phillips #7	H	Monument; Abo	61 / 130 / 9	TA'd

3. The proposed J R Phillips #11 unorthodox location of 1280’ from north line and 467’ from the east line is based upon drainage considerations.

Location and Drainage

The proposed JR Phillips #11 is a 20 acre infill location between existing Paddock producers. It is approximately equidistant from those wells and should encounter an undrained reservoir volume.

The following table provides drainage areas of the offset wells calculated from SophiH taken off contoured isopach maps or from log calculations.

		21S 37E		SophiH	Area	EUR	EUR
Oper.	Well	Loc	Reservoir	ft	ac	MBO	MMCFG
Apache	J R Phillips #5	A	Paddock	7	39	205	0
Apache	J R Phillips #7	H	Paddock	12.5	15	141	25
Apache	J R Phillips #9	A	Paddock	6	25	113	143
Apache	J R Phillips #10	A	Paddock	11	60	433	654

Reserves for the proposed location were calculated by averaging the offset drainage areas and SophiH and applying it to the new location. Any competitive drainage is shared between the proposed well and the existing offset wells. The results are as follows:

				SophiH	Area	EUR	EUR
Oper.	Well	Loc	Reservoir	ft	ac	MBO	MMCFG
Apache	J R Phillips #11	A	Paddock	10	8	57.7	57.7

4. Notice

The proposed **J R Phillips #11** only encroaches toward Apache operated Paddock wells. Further, Apache owns 100% leasehold interest, and revenue interest ownership is common, as to the Paddock, in the NE/4 of Section 1-T20S-R36E.

- Approval of this application will afford the interest owners in these spacing units an opportunity to recover oil and gas which would not otherwise be recovered and will do so without violating correlative rights.

Subject: JR Phillips #11; NSL Application

Dear Ms. Hanson

We have received the referenced application for the JR Phillips Well #11, proposed in the Paddock at 1280 FNL & 467 FEL, 1-20S-36E.

Previously, on 9-4-08, we issued Order NSL-5914, approving a NSL for the JR Phillips #11 well at 1310 feet FNL & FEL, 1-20S-36E, in the Paddock, Blinebry and Abo. Apparently that well was never drilled, as I do not find a well file for it.

Does the present request supersede that which was approved in 2008?

Sincerely

David K. Brooks
Legal Examiner

Subject: RE: JR Phillips #11; NSL Application

Hi David,

NSL-5914 was actually for the JR Phillips #10. Please see NSL Order No. 5914-B. It amended the Well Number.

However, I did submit a previous NSL application for the #11 well (was never approved), but that application located the well at 330' FEL which was too close to the SE corner of Unit Letter H (Sec 1). As a result, we re-staked this well to be 467' FEL to make it far enough away from the SE corner of Unit Letter H to not have to notify offset owners.

Michelle Hanson
