Comes now J. FELIX HICKMAN and makes application to the Commission for an exception to the provisions of Rule 6 (a) of the pool rules for the South Blanco Pictured Cliffs gas pool as contained in Order No. R-565, ^{c Rule 6(a)-5} as amended, by administrative action as provided by Order No. ~~R-611~~ for a non-standard proration unit consisting of Lots 1, 2, 3 and 4 and the South half (S $\frac{1}{2}$) Northeast Quarter (NE $\frac{1}{4}$) of Section Six (6), Township 24 North, Range 3 West, N.M.P.M., containing 209.72 acres, more or less, according to the official governmental survey, to be dedicated to his Clark No. 5 well, and in support thereof would show:

3. The proposed non-standard proration unit lies wholly within a single governmental section.

4. The entire non-standard proration unit may reasonably be presumed to be productive of gas.

5. (a) All interests in the section are under common ownership and applicant has been duly designated as operator of all lands within said section.

(b) Notice of this application with requests for waivers has been forwarded by registered mail to the following offset operators:

Attached hereto and made a part hereof is a plat showing the proposed non-standard proration unit, together with the location of the Clark No. 5 well, location of which has heretofore been approved by the Commission.

Respectfully submitted,

J. Felix Hickman
