July 12, 2010

Mark E. Fesmire, P.E.  
Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505

Dear Mr. Fesmire:

Pursuant to NMAC 19.15.15.13, BOPCO, L.P. applies for approval of an unorthodox oil well location for the following well:

<u>Well:</u>	James Ranch Unit Well No. 130
<u>Surface location:</u>	2185 feet FNL & 180 feet FEL §36-22S-30E (this is also the entry point in the Delaware)
<u>Bottom hole location:</u>	1800 feet FNL & 330 feet FEL §31-22S-31E
<u>Well unit (project area):</u>	SE¼NE¼ §36 and Lot 2, SE¼NW¼, and S½NE¼ (S½N½) §31, Eddy County, New Mexico (200.45 acres)

The well will be drilled to a depth sufficient to test the Southeast Quahada Ridge-Delaware Pool. The pool is spaced on statewide rules, with 40<sup>√</sup>acre spacing, and wells to be located no closer than 330 feet to a quarter-quarter section line. A Form C-102 is attached as **Exhibit A**.

The well's unorthodox surface location is due to placing it near existing well locations, which will minimize surface use. **Exhibit B**. The well is in the oil-potash area, which further restricts well locations.

The following leases are involved:

1. State Lease E-5229-9, covering the N½ of Section 36. The lease is owned by Bass entities. **Exhibit C**.
2. Federal Lease NM 02953, covering the N½ of Section 31. The lease is owned by Bass entities and ConocoPhillips Company. **Exhibit D**.

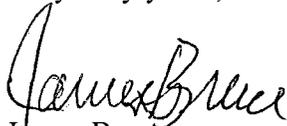

3. Federal Lease NM 02953-C, covering the N½ of Section 31. The lease is owned by Bass entities. **Exhibit E.**

Royalty, overriding royalty, and production payment interests are common among Leases NM 02953 and NM 02953-C. The Bass entities waive objection to the unorthodox location.

Please note that the federal leases have a depth severance as to depths above/below 6000 feet. However, attached as Exhibit F is a completion report from an offsetting well, showing that the target zone is located below 8000 feet. Thus, the encroachment does not adversely affect any offset owners. As a result, notice of the application has not been given to anyone.

Please contact me if you need any further information on this application.

Very truly yours,

A handwritten signature in cursive script that reads "James Bruce".

James Bruce

**To:** 'jamesbruc@aol.com'  
**Subject:** James Ranch Unit #130H; NSL Application

Dear Jim

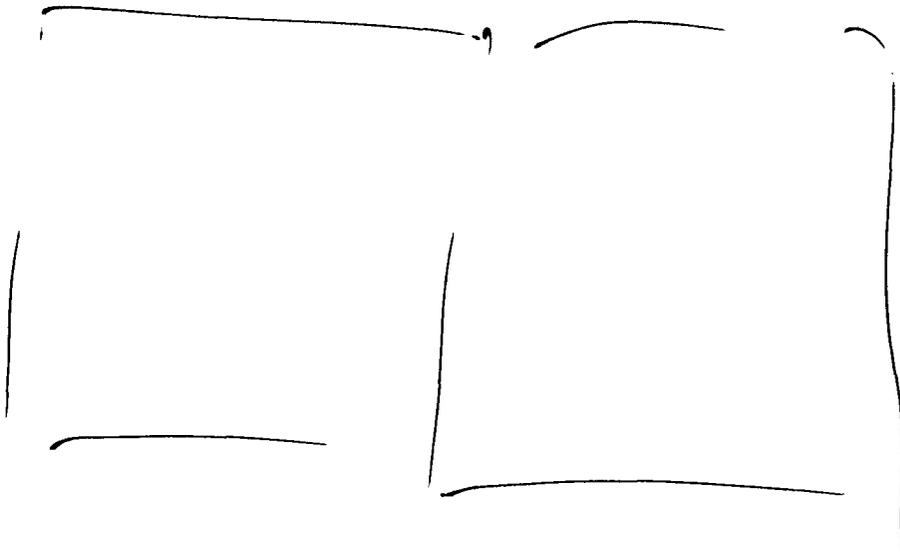

I am not sure that the proposed location of this well is unorthodox. ~~From the attached C-102, it appears that you are including Unit H of Section 36-22S-30E in the project area. If so, the location is not unorthodox.~~

If it is your intention to exclude the drillsite tract from the project area, you will need to file a C-102 reflecting that, in which case H—36-22S-30E would be the offsetting tract toward which this location encroaches. ✓

I am not sure that I understand what you say about a depth severance. If there were a depth severance within the vertical limits of the pool in the adjoining tract, then I would require notice to the owners of the shallower depths, since we could not presume that there was no communication within a pool. However if the depth severance relates only to the units included in the project area, I do not believe there is any notice requirement. Please confirm that the depth severance relates only to the units in Section 31. ✓

Sincerely

David K. Brooks

Mark E. Fesmire, P.E.  
Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505

Dear Mr. Fesmire:

Pursuant to NMAC 19.15.15.13, BOPCO, L.P. applies for approval of an unorthodox oil well location for the following well:

<u>Well:</u>	James Ranch Unit Well No. 106
<u>Surface location:</u>	1595 feet FSL & 1096 feet FWL §36
<u>Bottom hole location:</u>	2160 feet FSL & 330 feet FEL §35
<u>Well unit (project area):</u>	N½S½ of Section 35 and NW¼SW¼ of Section 36, Township 22 South, Range 30 East, N.M.P.M., Eddy County, New Mexico

The well will be drilled to a depth sufficient to test the Southeast Quahada Ridge-Delaware Pool. The pool is spaced on statewide rules, with 40 acre spacing, and wells to be located no closer than 330 feet to a quarter-quarter section line. A Form C-102 is attached as **Exhibit A**.

The unorthodox surface location is due to placing the well near the location of the James Ranch Unit Well No. 67, which will minimize surface use. **Exhibit B**. Due to the well's directional plan, the entry point in the Delaware (1643 feet FSL & 573 feet FWL) encroaches by seven (7) feet on the SW¼SW¼ of Section 36. However, the SW¼ of Section 36 is covered by State Lease E-5229-9, which has common ownership. **Exhibit C**. Thus, the encroachment does not adversely affect any offset owners. As a result of the foregoing, notice of the application has not been given to anyone.

Please contact me if you need any further information on this application.

**Subject:** BOPCO, LP James Ranch Unit #106H: NSL Application

Dear Jim

The referenced exception was approved on September 30, 2009 by Order NSL-6092.

Please note that NMOCD will no longer mail originals of administrative orders. Copies of the signed orders may be obtained from the Division's website.

Sincerely  
David K. Brooks  
Legal examiner
