SECTION

Walsh Engineering & Production Corp.
P. O. Box 254
Farmington, New Mexico 87401

Attention: Mr. Ewell N. Walsh

Gentlemen:

Exxon has an overriding royalty interest in the offset acreage to the Cotton Petroleum Corporation's Apache No. 106 to be located in Section 1-T24N-R4W, N.M.P.M., Rio Arriba County, New Mexico. We have no objection to the proposed 220.47 acre non-standard proration unit for this well. A copy of this letter is being furnished to the New Mexico Oil Conservation Commission as requested by your letter of January 19, 1978 to our Denver office.

Yours very truly,

L. H. Byrd

Unit A, Sec. 1-T24N-R4W, N.M.P.M.
Lindrieth Gallup-Dakota, West
Oil Pool
Rio Arriba County, New Mexico
Jicarilla Contract No. 126

Dear Mr. Ramey:

This request for administrative approval of a non-standard proration unit for the above-referred-to well is being presented on behalf of the operator, Cotton Petroleum Corporation. This request is being presented in accordance with the procedure set forth in Order R-4314.

The subject well is located 2040' from the North Line, 945' from the East Line of Section 1-T24N-R4W, Rio Arriba County, New Mexico. See attached Well Location and Acreage Dedication plat.

Due to the configuration of Section 1 and the location of the subject well it would be impossible to establish a 160-acre proration unit without having to exclude a portion of the Northeast Quarter of the section which is a legal subdivision.

Therefore, it is requested that the 220.47 acres included in the Northeast portion of Section 1-T24N-R4W be approved as a non-Standard Proration Unit for the above-referred-to well.

Copies of this request are being sent to the offset operators of Gallup-Dakota wells, as indicated on attached map, by Certified Mail.
