Application for Non-Standard Well Location
Florance Well No. 22B
E/2 Section 12-T29N-R09W
Blanco Mesaverde Pool
San Juan County, New Mexico

BP America Production Company respectfully requests an administrative approval for a non-standard well location for the Florance Well No. 22B to be drilled at a location of 570' FNL and 1570' FEL of Section 12, T29N-R09W. The non-standard location is necessitated by topographical and archeological conditions and would insure the conservation of surface and subsurface resources in the area.

To aid in your review attached is a C-102, Well Location Plat, indicating the proposed well location and the existing Mesaverde wells in the BP operated 320 acre unit in the E/2 of the Section. Also attached is a topographical map and a 9-section plat showing the affected offset wells and operators.

Offset operators in the S/2 of Section 01 and E/2 of Section 7 are being notified of this application via certified mail return receipt requested.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mary Corley".
