Mike and Terry,

As approved, Tetra Tech has scheduled the soil remediation on the Skelly #611 for Tuesday morning (11-9-10). The remediation will be performed as proposed in the submitted work plan. The remediation should take 1 to 2 day to complete. We will notify you on the progress of the site for inspections. Once the Skelly #611 is completed, the Beech Federal #2 Tank Battery will start as discussed in the approved work plan. We will also notify (call or email) and let you know before starting the project. Please call me if you have any questions, thanks
