Mike:

I am requesting a witnessed sampling at the Gissler AV-B battery on Tuesday June 22, 2010 at 9:00 am. YPC is attempting to accomplish this cleanup without taking the battery out of service. A large number of low producing wells pump into this battery so we are conducting the clean up in sections. If your schedule permits I would like to show you the progress we are making, so we may close this section in order to move on to the next. If you have any questions please feel free to call.

Thank you,

Amanda:

Sorry for your inconvenience. I think worse on you than me. I will be out Monday, but please proceed with this sampling event. I will assume, unless advised otherwise, that the new round of samples will be pulled from the same areas as last time.

Thanks,

Mike Bratcher

Mike:

I sent to rounds of samples to Trace Analysis. 1 made it and 1 did not. Sadly, the Gissler AV-B Battery samples did not. I will be re-sampling the excavation Monday September 20, 2010 at 9 am. I'm very sorry for the inconvenience.
