Hi Mike,

Here are some pictures from the day of the leak. When we arrived one vacuum truck was leaving and they were moving contaminated soil into the fenced area so the cows could not get into it. Fluid was standing on the ground in the pasture, the road, the location, etc. I don't have any good pictures of the pasture so I attached what I have. I will send some more pictures in another email.

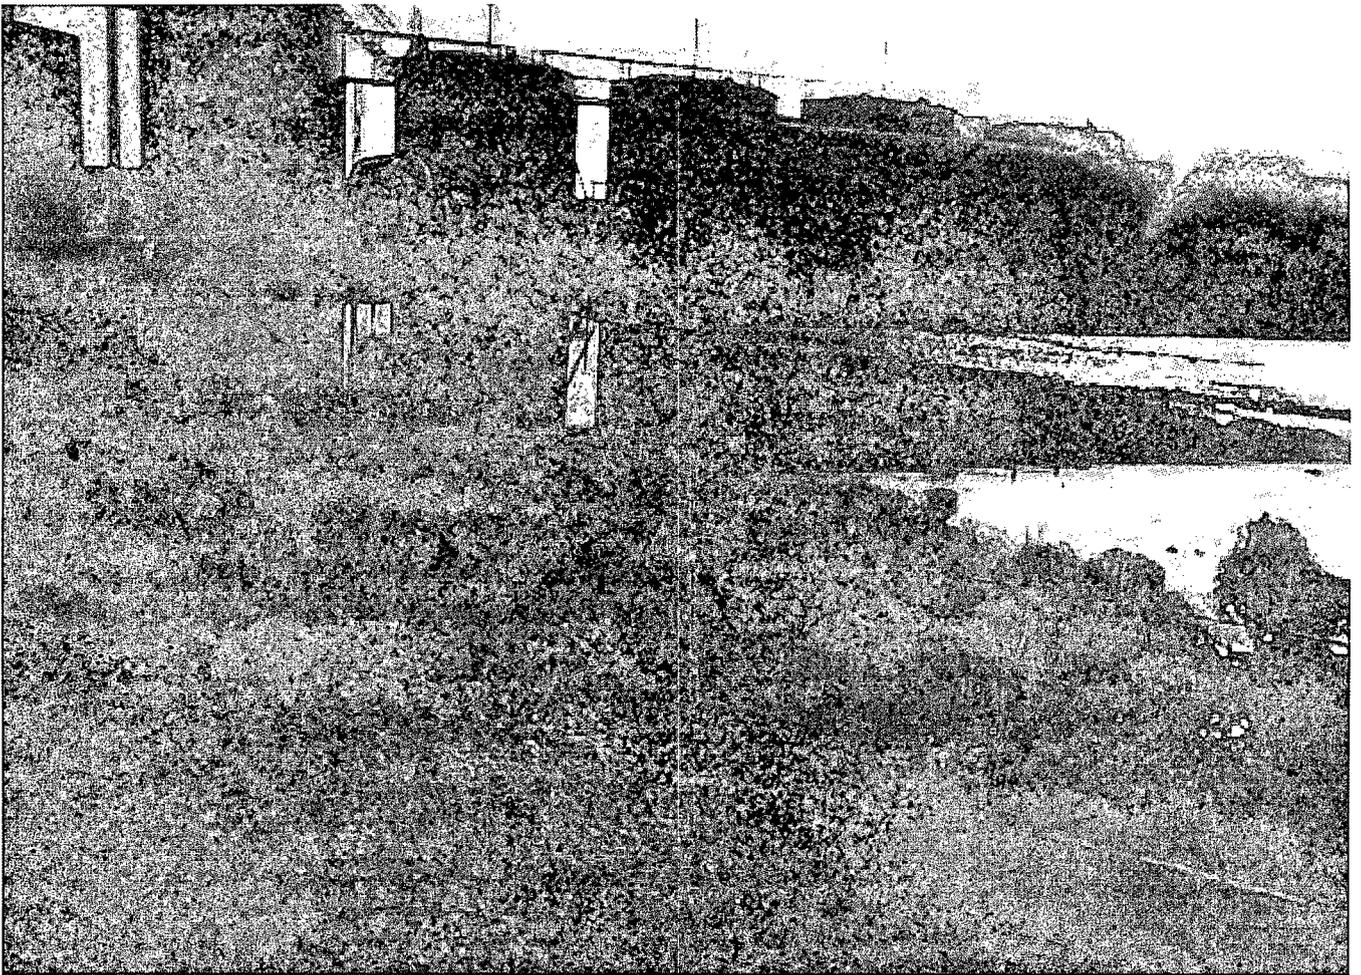

Thanks Again,

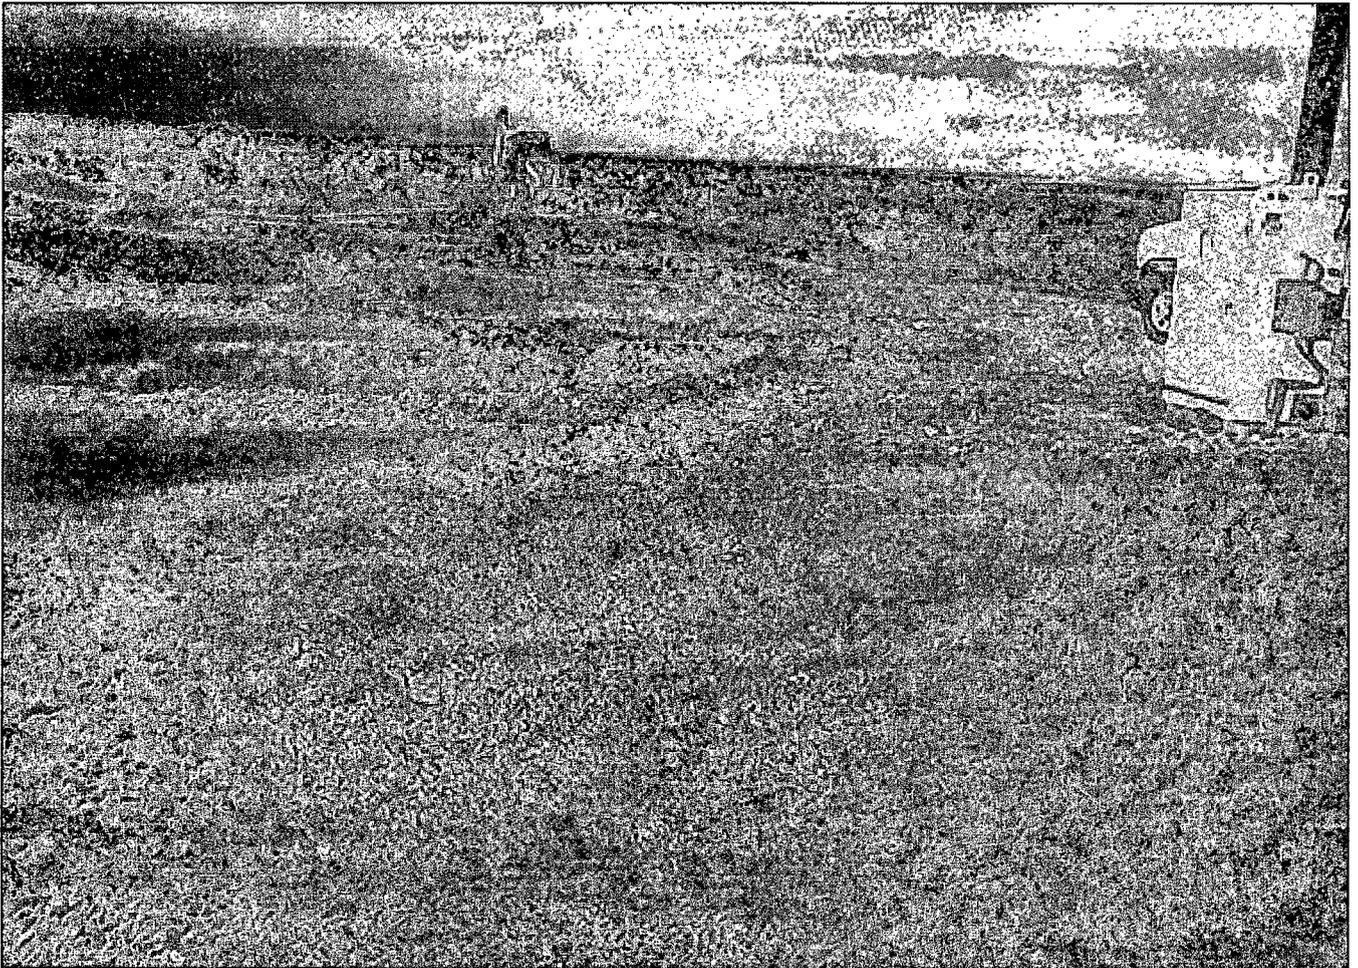

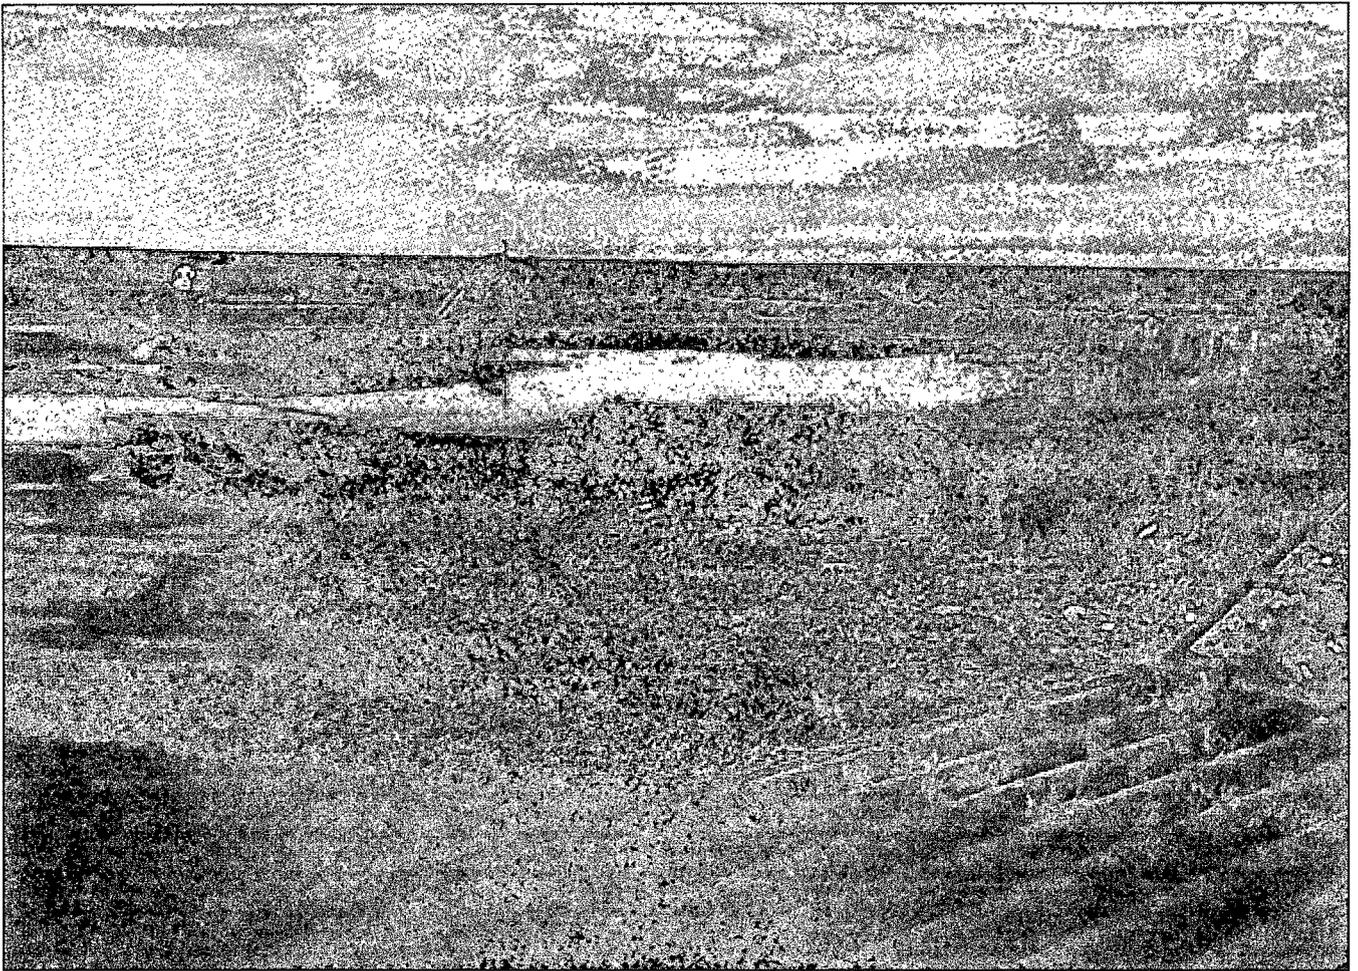

Cheryl

Mike,

This was returned by your system so I removed some of the pictures. Please call me after you have reviewed. 703-6159

Thanks Again,

Cheryl

Mike,

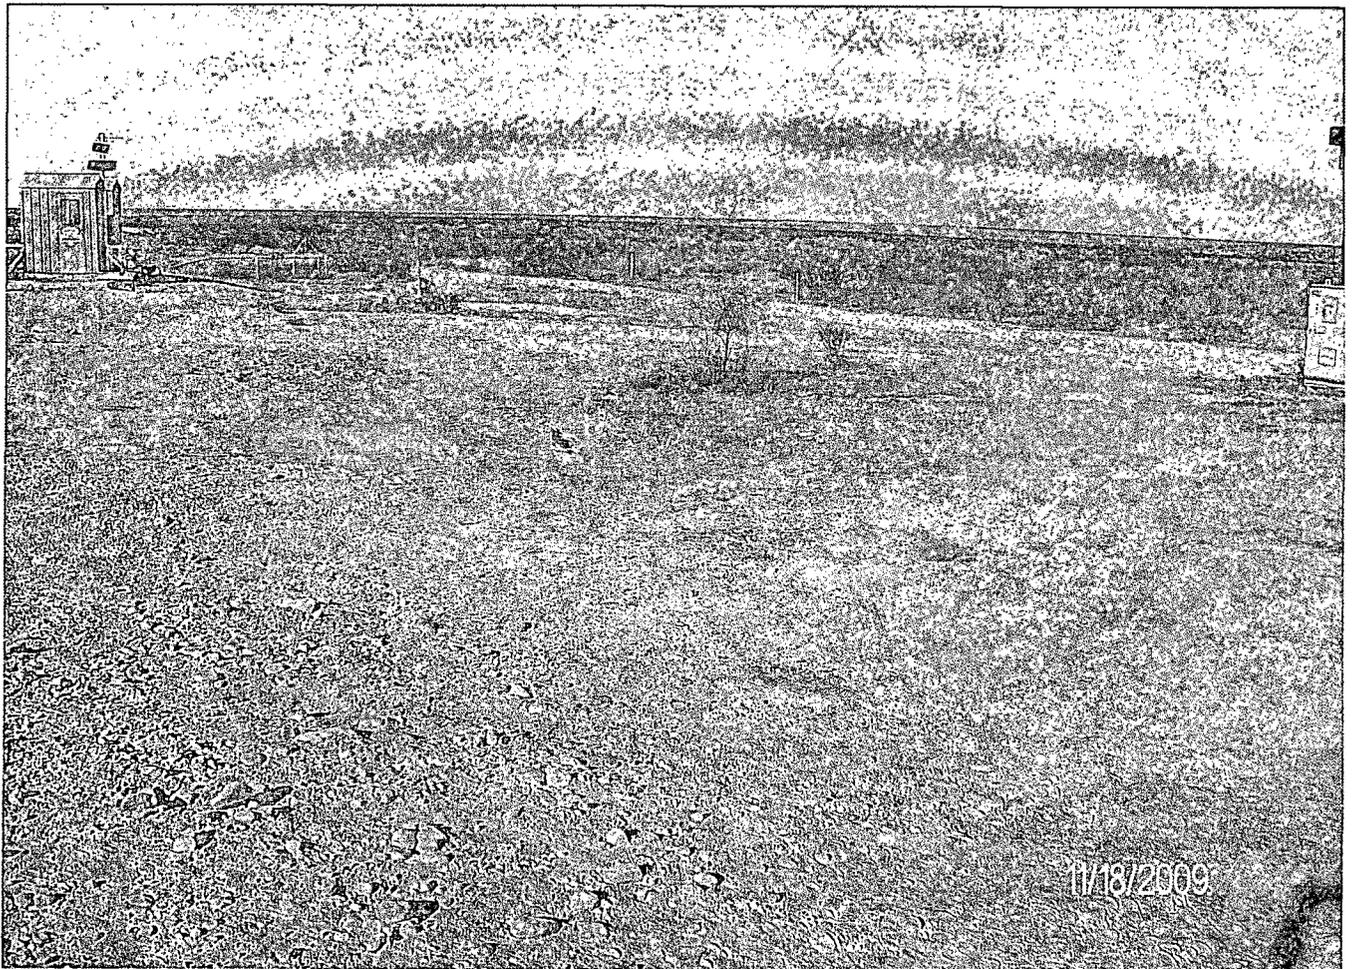

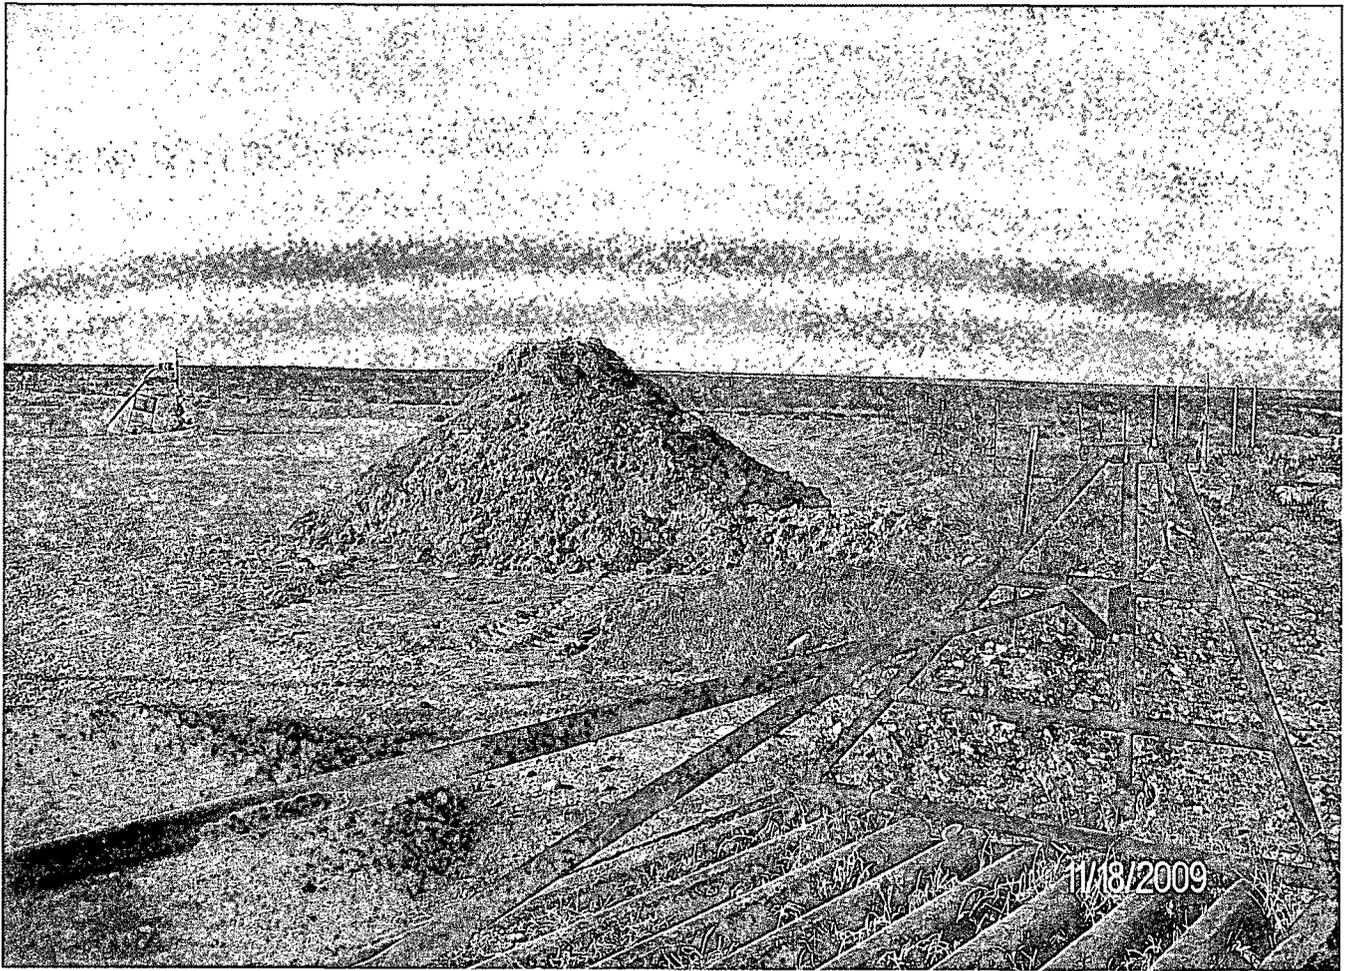

Here are some pictures I took yesterday. I could not get a good picture of the shimmer on the surface.

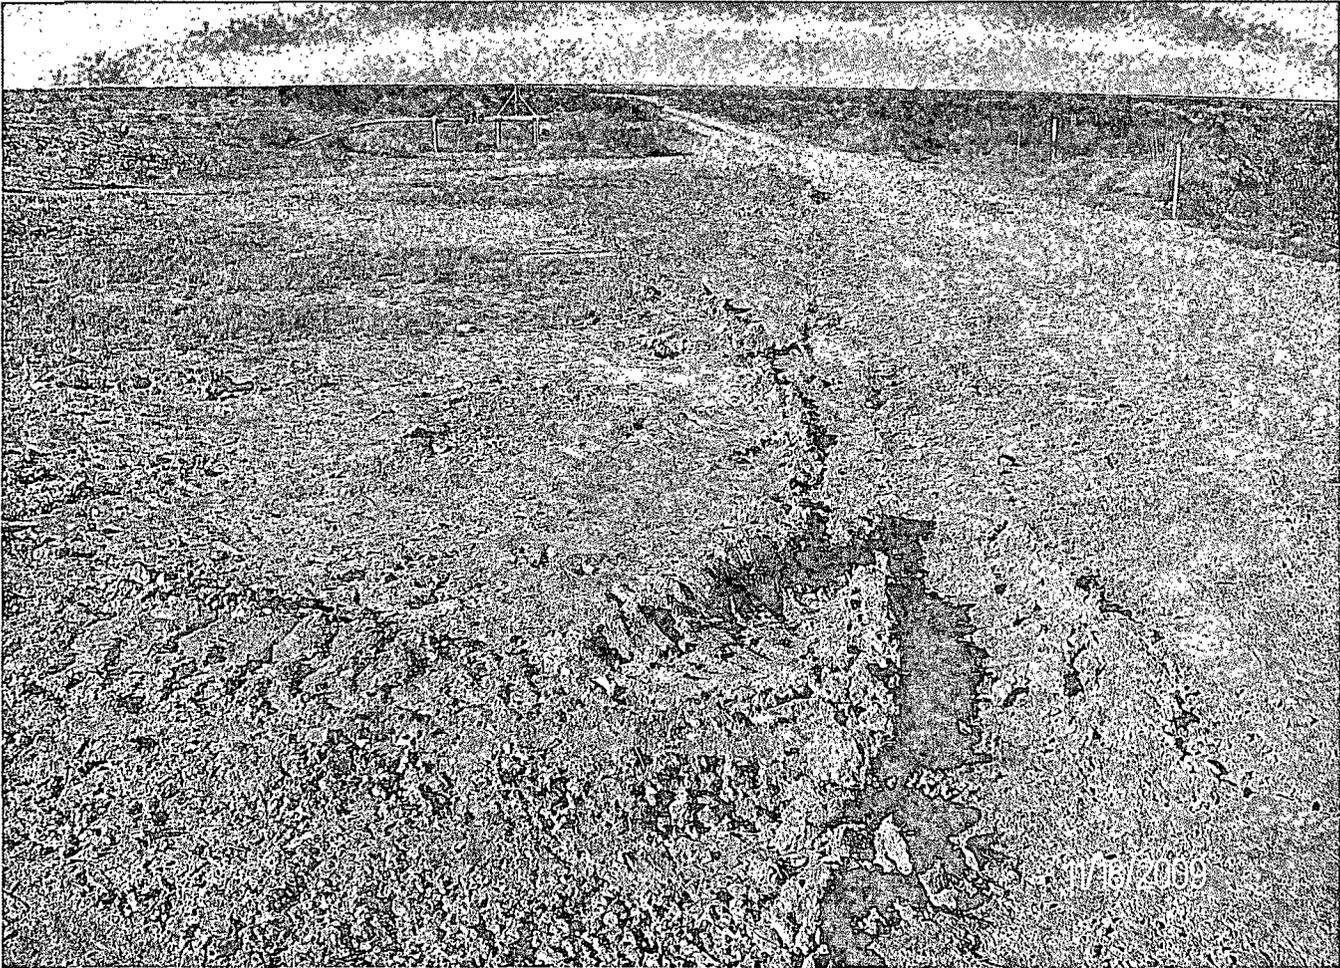

Cheryl
