**Subject:** RE: Open Issues

Amanda: The C-141 for the Santa Fe SWD is not signed. You may want to reword the "Describe Cause of Problem and Remedial Action Taken" block. The signature is the big thing though.

Thanks,  
Mike

**Subject:** Open Issues

Mike:

We have a few open issues I wanted to follow up on.

-  Windmill ATI State #1 - C-141/Final Report, analytical was submitted to your office on December 10, 2009 requesting closure.
-  Jester SWD #4 C-141/Final Report was submitted to your office on November 24, 2009 requesting closure.
-  Santa Fe Land SWD #1 - C-141/Final Report was submitted to your office on November 24, 2009 requesting closure.
-  Routh NU SWD #2 – as per our discussion December 10, 2009 the pasture and pooling area will be delineated to 250 ppm. The stockpile on location will be blended with caliche material and used to build berms around location.

Please let me know if all this information is correct and the status of these closures. Thank you and Happy New Year!
