Gentlemen:

Reference is made to an administrative order dated May 1, 1956, in which you were granted an exception to Rule 309 (a) and authorized to commingle the production from State Lease E-9137 and State Lease E-9217, both located in the W/2 W/2 of Section 31, Township 13 South, Range 32 East, NMPM, Lea County, New Mexico.

Since you now have production on only one of the above-mentioned leases, it appears that the authorization to commingle production is no longer necessary. Accordingly, it is the intention of the Commission to cancel the order granting such authorization unless you furnish us with information as to why such action should not be taken.

Very truly yours,

OLIVER E. PAYNE  
Associate Counsel

Administrative Exception to Rule 309(a)

O  
Gentlemen:

Reference is made to your application for administrative approval for an exception to Rule 309(a) in the Caprock Queen Pool of Lea County, New Mexico.

P  
It is understood that this exception to Rule 309(a) is to be ascribed to your State "X" lease known as State lease No. E-9217-1, which consists of Lots 1 & 2 of Section 31, Township 13 South, Range 32 East and has wells Nos. 1 & 2 on the same lease and your State lease known as State lease No. E-9137-1, which consists of Lots 3 & 4 of same section as other lease and at present has no wells on this lease, all in Lea County, New Mexico.

Y  
By authority granted me under provisions of Rule 309(b), Section 4 of the Rules and Regulations of the New Mexico Oil Conservation Commission, you are hereby authorized to operate a central tank battery on the above described acreage as an exception to Rule 309(a).

Gentlemen:

We have applied to the Commissioner of Public Lands, State of New Mexico, to combine our two (2) State Leases, being E-9137 and E-9217, which cover the W/2 W/2 of Section 31, T-13-S, R-32-E, Lea County, New Mexico.

*lot 1 & 2*  
*31-135*

The mineral ownership under the two leases is dedicated to a common beneficiary. The producing formation is from a common source. There is room for only four (4) wells on the above acreage so that a common tank battery will not be used for more than 4 wells.

By a copy of this letter sent Registered Mail we are advising all of our offset operators.
