

10076, these leases are your SONM "BY" NCT and SONM "BV" NCT leases respectively.

We are unable to allow you to expand your present facility until you provide facilities to separately meter the production from each of the two state leases involved.

Very truly yours,

GUYTON B. HAYS  
Commissioner of Public Lands

and NCT-2 (Common Lease B-10076)  
and State of New Mexico "BY"  
NCT-1 and NCT-2 (Common Lease  
B-11264) Lea County, New Mexico

Gentlemen:

Attached are plats of the revised commingling installation on the subject leases. This revision was made to comply with Rule 53 of the State Land Commissioner's Office as stated in Mr. Bilberry's letter of October 24, 1966, a copy of which was sent to your office.

TEXACO requests an amendment to New Mexico Oil Conservation Commission's Administrative Order No. CTB-23 to permit commingling of the subject leases as shown on the attached plats.

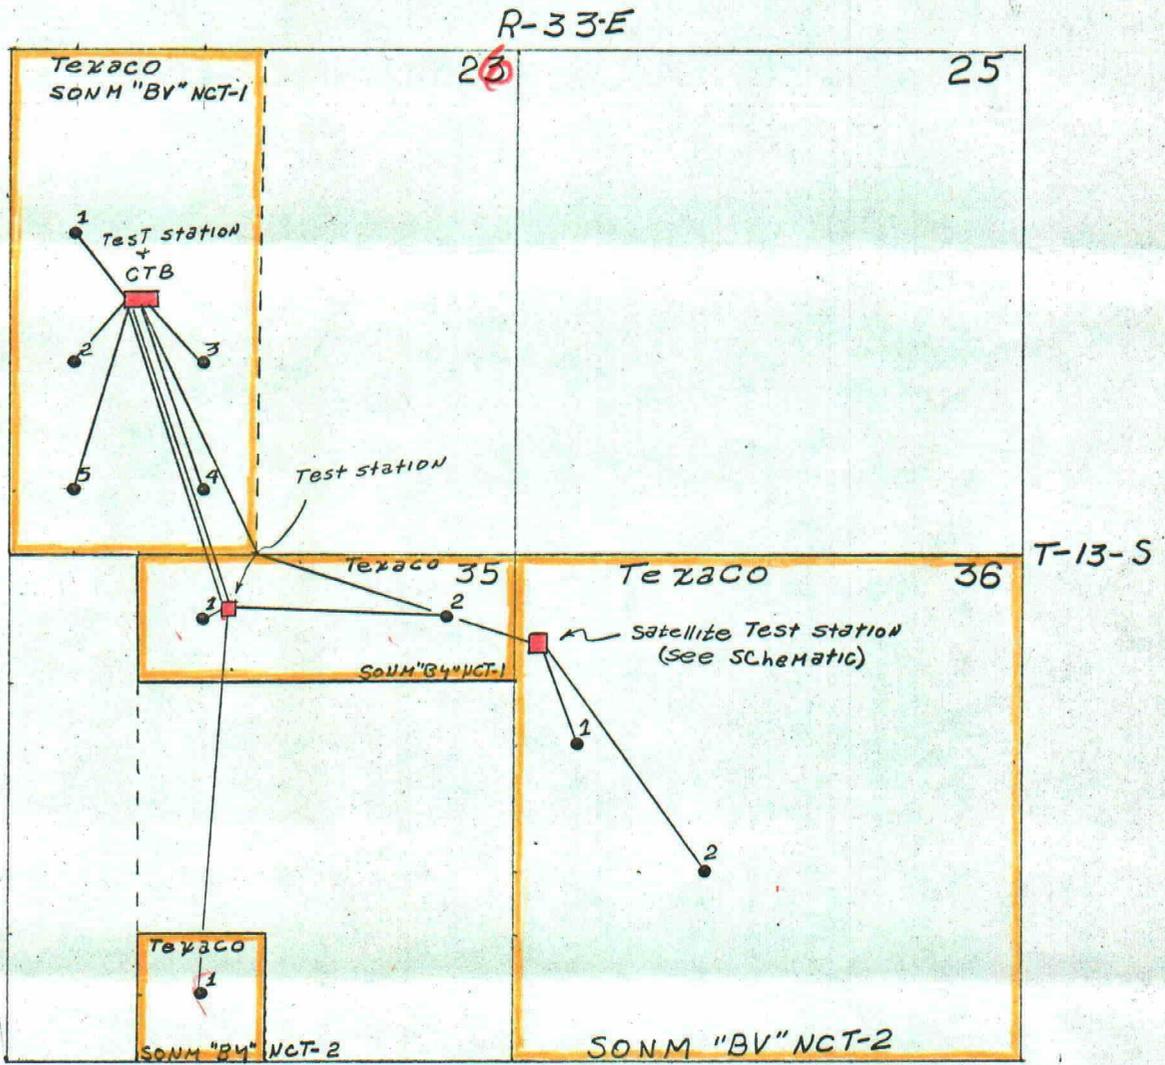

Yours very truly,

Re: Amendment to Administrative Order  
CTB-23 to Authorize Commingling on  
TEXACO Inc. State of New Mexico  
"BV" (NCT-1), "BV" (NCT-2), "BY"  
(NCT-1) and "BY" (NCT-2) Leases,  
Lazy "J" (Pennsylvanian) Field,  
Lea County, New Mexico

ATTENTION: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. respectfully requests that Administrative Order  
CTB-23 be amended to authorize the commingling of hydrocarbon production  
from the Lazy "J" (Pennsylvanian) pool into common storage facilities to  
serve TEXACO's State of New Mexico "BV" (NCT-1), "BV" (NCT-2), "BY" (NCT-1)  
and "BY" (NCT-2) Leases.

Administrative Order CTB-23 authorizes the commingling of produc-  
tion from the State of New Mexico "BV" (NCT-1) and "BY" (NCT-1) Leases.  
It is proposed that production from the State of New Mexico "BV" (NCT-2)  
and "BY" (NCT-2) Leases be produced into a satellite test station and then  
metered and pumped to the existing commingled battery located on the State  
of New Mexico "BV" (NCT-1) Lease. A schematic diagram of the proposed  
commingling installation and a plat of the leases showing the wells involved  
are attached. Production shall be allocated on a well-test basis.

The leases proposed for addition to CTB-23 are common State  
leases with those previously authorized for commingling and the working  
interests are also common. Since all interests are common it is respect-  
fully requested that this proposal be approved administratively.

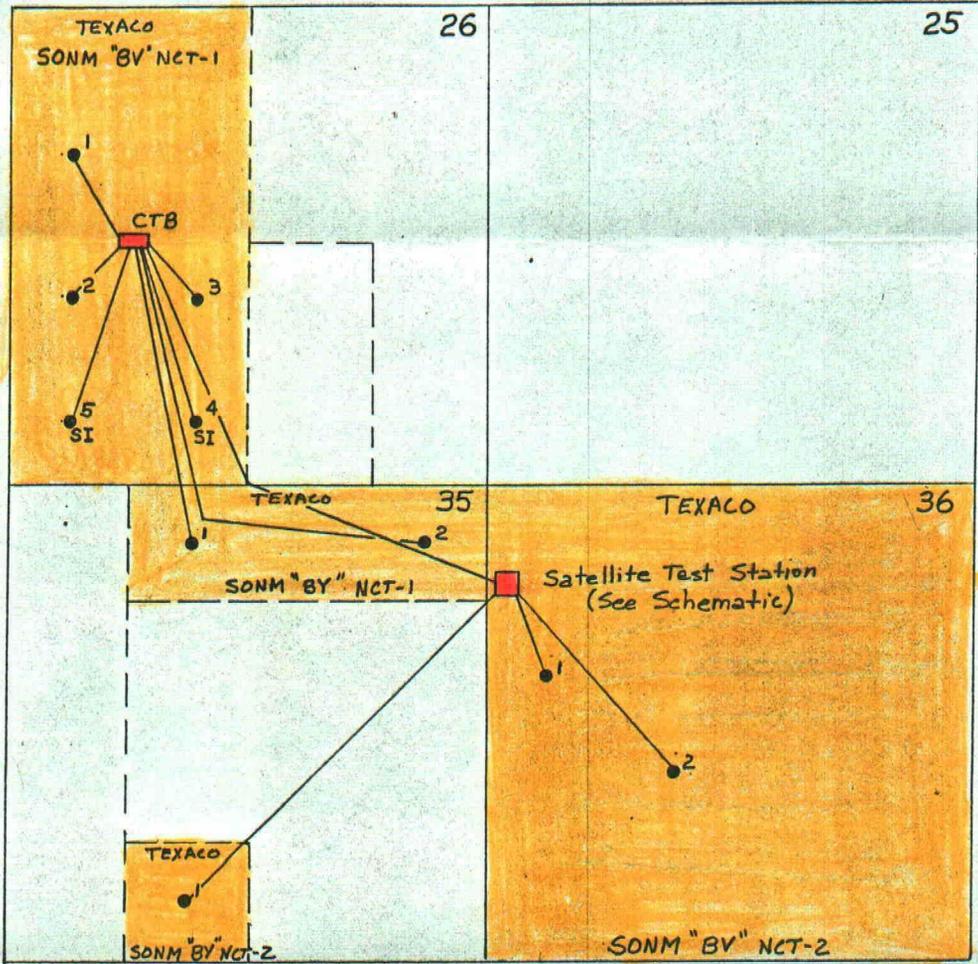

Yours very truly,

J. G. Blevins, Jr.  
Assistant District Superintendent

Re: Commingling of Oil  
The Texas Company  
State "BV" and "BY" Leases  
Lazy "J" Pennsylvanian Pool

Gentlemen:

Reference is made to your inquiry of March 21, 1958, regarding the Commission's interpretation of its administrative order granting approval to commingle the production from the above-captioned leases in the Lazy "J" Pennsylvanian Pool.

The Commission interprets the above-referenced order as authorizing the commingling of the casinghead gas as well as the oil produced from the subject leases from the Lazy "J" Pennsylvanian Pool.

Very truly yours,

A. L. PORTER, Jr.,  
Secretary-Director

Santa Fe, New Mexico

Attention: Mr. A.L. Porter, Jr., Secretary-Director

Gentlemen:

Reference is made to your letter dated January 28, 1958, above subject, whereby The Texas Company was given administrative approval to operate a central tank battery to serve the subject leases. Specific reference was made, in your letter, to the comingling of oil. In our application, dated December 2, 1957, we, in addition to requesting a permit to comingle oil, requested permission to comingle casinghead gas from these two leases. This is to request clarification of your ruling to determine whether or not we have been given your approval to proceed with the comingling of casinghead gas as requested in our application.

Your early consideration of this matter will be appreciated.

Yours very truly,

H. N. Wade  
Petroleum Engineer

Re: Commingling of Oil  
The Texas Company  
State "BV" and "BY" Leases  
Lazy "J" Pennsylvanian Pool

Gentlemen:

Reference is made to your letter dated December 2, 1957, wherein you requested an exception to Rule 309 (a) and authority to commingle, prior to measurement, of oil produced from the Lazy "J" Pennsylvanian Pool on the following leases:

State of New Mexico "BV" Lease  
W/2 Section 26, Township 13  
South, Range 33 East

State of New Mexico "BY" Lease  
N/2 N/2 Section 35, Township 13  
South, Range 33 East

It is understood that no more than eight units will be produced into the common tank battery proposed for these leases.

By authority granted me under the provisions of Rule 309, Section (b)-6, of the New Mexico Oil Conservation Commission Rules and Regulations, you are hereby authorized to operate a central tank battery on the above described acreage in Exception to Rule 309 (a).

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director

Gentlemen:

Permission is hereby granted to commingle production from State Lease B-10076, State of New Mexico "BV" and State Lease B-11264, New Mexico "BY". Lease B-10076 being located in the W $\frac{1}{2}$  of Section 26, Township 13 South, Range 33 East, Lea County and Lease B-11264 located in the N $\frac{1}{2}$  NE $\frac{1}{4}$  of Section 35, Township 13 South, Range 33 East, Lea County, New Mexico. Both of these leases having common beneficiaries, Common Schools.

When reporting production on the Production and Royalty Statements Form SLO-111-A please use both of the lease numbers involved so that they may be properly credited.

Very truly yours,

MURRAY E. MORGAN

Gentlemen:

In compliance with Rule 53 as stated in your letter of October 24, 1966, TEXACO has revised the commingling installation on the two subject leases to properly meter the production from each lease as shown on the attached plats.

We have been unable to locate the State Land Commission Rule 53 in our files and ask that you please send us an up to date set of the State Land Commissioner's rules in order that misunderstanding of these rules may be eliminated in the future.

Yours very truly,
