Attached is a plat of the above lease area and shows all offset operators.

In support of this application, Phillips Petroleum Company wishes to state the following:

1. The separate state leases are dedicated to a common beneficiary.
2. All wells will be producing from a common source of supply.
3. Adequate testing facilities will be provided for individual well testing.
4. The only offset operator has consented to the proposed commingling of oil from the two separate leases and their letter waiving objection to this proposal is attached.
