Subject: Request for Authority to Centralize Tankage, State C (B-1400) and State N (B-1167) Leases, Eumont Field, Lea County, New Mexico

Mr. A. J. Porter, Jr.  
Secretary-Director  
New Mexico Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Dear Mr. Porter:

We propose to centralize oil treating and storage facilities for all wells on the subject leases, with the unitized battery to be located on the State C Lease, Section 24, T-21-S, R-35-E, N.M.P.M. The savings in lease operating costs, resulting from reduced battery maintenance, would permit us to produce these wells economically for a longer period of time, thereby increasing the amount of oil recovered from the reservoir.

We have obtained permission to this centralized tank battery proposal from the office of the Commissioner of Public Lands, and from the offset operators. The approvals from the offset operators and a copy of the Land Office approval are included with this letter.

With this preliminary work now completed, we are hereby making formal application for administrative approval to commingle the oil produced on our State C and State N Leases into a common tank battery located on the State C Lease

Very truly yours,

P. A. Dennie  
Division Production Manager

Gentlemen:

Permission is hereby granted to centralize production into one tank battery from all wells on Lease State C, and Lease State N, Section 24, T-21S R35E, N.M.P.M., Eumont Field, Lea County, New Mexico.

All this acreage is committed to one beneficiary institution, that being Common School.

Sincerely yours,

MURRAY E. MORGAN,  
Commissioner of Public Lands
