Attention: A. L. Porter, Jr., Secretary-Director

Re: Application for administrative approval to commingle production from Texas Pacific Coal and Oil Company's Eaton "B" Account 1 Lease and Eaton "B" Account 2 Lease in Section 12, Township 25 South, Range 37 East, Lea County, New Mexico.

Gentlemen:

Texas Pacific Coal and Oil Company respectfully requests an exception to Rule 309-A to permit the commingling of production in a common tank battery from our Eaton "B" Account 1 Lease, consisting of the northeast quarter of Section 12, Township 25 South, Range 37 East and Eaton "B" Account 2 Lease consisting of the northwest quarter of Section 12, Township 25 South, Range 37 East, Lea County, New Mexico.

In support of this request the following conditions are presented for your consideration:

1. All production to be commingled will be from the Langlie Mattix oil pool.
2. Adequate facilities will be provided for accurately determining production from each well at reasonable intervals.
3. Production from each lease will be measured and determined in accordance with the applicable provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities". The proposed commingling facilities will be installed as shown on the attached schematic diagram.

4. All parties owning an interest in these leases and the purchaser of the production to be commingled have been furnished a copy of this application by certified mail.

In view of the foregoing conditions, it is requested that administrative approval be granted for the commingling of production from the Langlie Mattix pool on Texas Pacific Coal and Oil Company's Eaton "B" A/c-1 and Eaton "B" A/c-2 Leases in Section 12, T-25-S, R-37-E, Lea County, New Mexico.

Respectfully yours,

TEXAS PACIFIC COAL AND OIL COMPANY

  
B. D. Baker
