**CANCELLATION  
Administrative Order CTB-115**

**Gentlemen:**

This is to acknowledge receipt of your letter advising that Plains Unit Operating Well No. 6 has been abandoned and that need for commingling between various Plains Unit wells in the Lusk-Strawn Pool no longer exists.

**Administrative Order CTB-115 is hereby cancelled.**

**Very truly yours,**

Subject: Administrative Order CTB-115

Mr. A. L. Porter, Jr.  
Secretary-Director  
New Mexico Oil Conservation Commission  
Post Office Box 871  
Santa Fe, New Mexico

Dear Mr. Porter:

Reference is made to your Administrative Order CTB-115 granting administrative approval of an exception to Rule 309-A of the Commission's Rules and Regulations to permit the commingling of Lusk Strawn Oil Pool production from our Plains Unit Wells. In compliance with this order, upon completion of Plains Unit Wells No. 6 and 7, now drilling, we will meter and sample each well stream separately prior to commingling until such time as they are included in a participating area. The Strawn participating area has been enlarged to include Wells No. 2 and 3X, and we are now producing these two wells into a common separator prior to metering and sampling.

This information is being furnished for your record of metering installations under CTB-115.

Yours very truly,

V. E. Staley  
Area Superintendent
