Gentlemen:

Reference is made to Commission Order R-1290-A, which authorized commingling of San Andres production from the State A, State B, State F, and State H Leases, Vacuum Field, (State H since deleted), and Administrative Order PLC-6, which authorizes commingling of Glorieta production from these leases with the San Andres. Since issuance of these orders, we have obtained an intermediate market for the Glorieta, and therefore, plan to install a separate battery to handle the Glorieta production from the State A, State B, and State F Leases.

Since this operation will result in an increase in revenue for both Shell and the State of New Mexico, we respectfully request an amendment to Administrative Order PLC-6 to this effect.

Yours very truly,
