Continental Oil Company respectfully requests administrative approval, as provided under Rule 309-B, for commingling of production into a common tank battery from the Russell Federal 30 and 31 Leases, operated by Continental Oil Company, in Sections 30 and 31, Township 26 South, Range 32 East, Lea County, New Mexico. Each of these two leases contains one oil well which produces from the Battleaxe Delaware Pool.

1. All wells on both leases produce from the same source of supply, the Battleaxe Delaware Pool. All wells produce at rates below top allowable.
2. Both leases have the same common ownership, royalty interest (Federal acreage), and overriding royalty interest.
3. Adequate facilities will be provided for accurately determining production from each well at reasonable intervals.
4. Adequate storage facilities consisting of 2 - 210 barrel stock tanks are provided in lieu of automatic shut-down facilities.
