Y  
Under the authority granted me pursuant to Rule 309-B, Sun Oil Company is hereby authorized to commingle the above-described production as proposed subject to the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement that the production be metered with temperature-compensated meters operated in conjunction with samplers, and provided further, that the meters shall be equipped with non-reset counters. Please notify the Hobbs District Office of the Commission at such time as this installation is complete in order that a field inspection may be made of the installation prior to putting it in operation.
