Re: Shenandoah Flood No. 1  
Request for Amendment of  
CTB 185 to Include S/2 NE/4  
Section 7, T-17-S, R-33-E  
Lea County, New Mexico

Gentlemen:

This is to advise you that effective March 1, 1970, Shenandoah purchased from Getty Oil Company the above captioned lease. The above CTB 185 designation is in accordance with your letter of May 20, 1968. Attached hereto is up to date plat that shows all property connected to the commingled battery of this date, and which you will note also includes the 80 acres, S/2 NE/4 Section 7, T-17-S, R-33-E, which is the subject of this amendment request.

In connection with our request for commingling permit CTB 185 to include the S/2 NE/4 Section 7, T-17-S, R-33-E, we wish to advise you as follows:

- (1) Attached hereto as Exhibit "A" is a plat which shows the location of said leases, well, flow lines and common tankage.
- (2) Attached hereto as Exhibit "B" is a list of the lease area by State Lease number and legal description, representing that all royalties therefrom are paid to the State of New Mexico, and there is no difference in ownership between said leases as to royalty or working interest thereunder, with the exception of an overriding royalty in the SW/4 NE/4 Section 8, T-17S, R-33E; and relative to this overriding royalty you have heretofore been furnished a telegram from the Trust Department of the Fort Worth National Bank of Fort Worth, Texas, waiving any objection to the commingling of production from such 40-acre tract.

- (3) All wells currently being produced by Shenandoah on these leases produce from a single common reservoir, being the Grayburg-San Andres formation.
- (4) The purpose for this request for commingling is to achieve a reduction in the cost of operation.
- (5) The State "A" producing wells, 1, 5, 7, and 8, along with Aztec-State 1, 2, 3, and 4 and the State "C" 1-Y, State D-2 wells are being produced into the one common tank battery that is located approximately 660' north of the State "A" 6-W injection well (see plat).
- (6) The 80 acres currently has one producing well that is located 1980' from the NL and 660' from the EL Section 7, T-17-S, R-33-E and is producing into a tank battery located some 600' west of this well. Enclosed herewith is a copy of the Acreage Dedication Plat, covering this operation.

The royalty payable to the State of New Mexico will not be changed in any manner as a result of your approval of this application.

It is therefore requested that Commingling Permit CTB 185 be amended so as to include the 80 acres described in paragraph (6) above, so that Commingling Permit CTB 185 will now include the following acreage; as to State of New Mexico Lease E-881, W/2 SW/4 in SE/2 SW/4 Section 8; as to State of New Mexico Lease B-2516, N/2 NW/4 and NW/4 NE/4 Sec. 7; and S/2 NW/4, SW/4 NE/4 and N/2 NW/4 Section 8; and S/2 NW/4 Section 9; and as to State of New Mexico Lease K-5636, NE/4 NE/4 Section 7; and as to State of New Mexico Lease B-1565, S/2 NE/4 Section 7; all of which are located in T-17-S, R-33-E, Lea County, New Mexico.

Very truly yours,

SHENANDOAH OIL CORPORATION

T. P. Bates

Vice President - Secondary Recovery
