Continental Oil Company  
P. O. Box 460  
Hobbs, New Mexico 88240

Attention: Mr. G. C. Jamieson

Administrative Order CTB-187

Gentlemen:

Reference is made to your application dated September 17, 1968, for administrative approval of an exception to Rule 309-A of the Commission Rules and Regulations to permit the commingling of Justice-Blinebry production from your Jack 26 Lease comprising the NW/4, N/2 SW/4, and SE/4 SW/4 of Section 26 and your Jack 27 Lease comprising the E/2 of Section 27, Township 24 South, Range 37 East, Lea County, New Mexico, after separately metering the production from the Jack 27 Lease and determining the Jack 26 production by means of the subtraction method, provided that the production from your Jack 26 Well No. 1 will also be separately metered in order to satisfy a United States Geological Survey requirement because of a difference in royalty rate payable to that well. It is our understanding that with the exception of this special royalty rate, all ownership in both leases is identical throughout.

Under the authority granted me pursuant to Rule 309-B, you are hereby authorized to commingle the above-described production as proposed, subject to the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities."

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director

OIL CONSERVATION COMMISSION

P. O. BOX 2088

SANTA FE, NEW MEXICO 87501

Dear Sir:

Reference is made to your letter of the 10th day of August, 1968, regarding the proposed drilling of an oil well in the Santa Fe area.

The Commission has reviewed the information submitted to it and has concluded that the proposed drilling is in compliance with the provisions of the Oil Conservation Act.

Very truly yours,

Director

The Commission has reviewed the information submitted to it and has concluded that the proposed drilling is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well location and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well depth and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well casing and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well completion and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well production and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well abandonment and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well reworking and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well plugging and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well abandonment and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well reworking and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well plugging and has concluded that it is in compliance with the provisions of the Oil Conservation Act.

The Commission has also reviewed the proposed well abandonment and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well reworking and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well plugging and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well abandonment and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well reworking and has concluded that it is in compliance with the provisions of the Oil Conservation Act. The Commission has also reviewed the proposed well plugging and has concluded that it is in compliance with the provisions of the Oil Conservation Act.

Very truly yours,  
Director

Director
