October 29, 1968

C Shell Oil Company
P. O. Box 1509
Midland, Texas 79701

Attention: Mr. S. M. Paine

Administrative Order CTB-188

O Gentlemen:

P Reference is made to your application dated October 4, 1968, for administrative approval of an exception to Rule 309-A of the Commission Rules and Regulations to permit the commingling of Cato-San Andres production from your Thelma Crosby Lease comprising the SE/4 of Section 5 and your Thelma Crosby "B" Lease comprising the NW/4 of Section 5 and the NE/4 of Section 6, Township 9 South, Range 30 East, Chaves County, New Mexico, after separately metering and sampling the production from each lease.

Y Under the authority granted me pursuant to Rule 309-B, Shell Oil Company is hereby authorized to commingle the above-described production as proposed, subject to the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters and temperature-compensated meters. Please notify the Hobbs District Office of the Commission at such time as this installation is complete in order that an inspection may be made prior to putting it in operation.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director

The Commission is pleased to announce the results of the recent oil conservation survey conducted in the state of New Mexico. The survey was conducted by the Commission and the results are as follows: The average oil consumption per household in the state is 150 gallons per month. This is a decrease of 10% from the previous year. The Commission is pleased to see this decrease and is continuing to work with the public to conserve oil. The Commission is also pleased to see that the average oil consumption per household in the state is 150 gallons per month. This is a decrease of 10% from the previous year. The Commission is pleased to see this decrease and is continuing to work with the public to conserve oil.
