Re: Surface Commingling, Lease Commingling,  
Off-Lease Storage and Measurement.  
Dagger Draw Upper Penn, North Pool  
Eddy County, New Mexico

Dear Mr. Stone,

Yates Petroleum Corporation respectfully requests administrative approval for surface commingling, lease commingling, off-lease storage and measurement for the following wells:

Patrick API #1  
660' FNL & 660' FWL  
Unit D, NWNW  
Section 10-T19S-R25E  
Eddy County, New Mexico  
Fee Lease

Patrick API #2  
1980' FNL & 1980' FEL  
Unit G, SWNE  
Section 9-T19S-R25E  
Eddy County, New Mexico  
Fee Lease

Ottawa AOW Federal #2  
660' FSL & 660' FWL  
Unit M, SWSW  
Section 3-T19S-R25E  
Eddy County, New Mexico

The production from this well is transported prior to measurement to a common tank battery, located at the Patrick API #1 (Unit D 660' FNL & 660' FWL Sec. 10-T19S-R25E).

The purpose of the surface commingling, lease commingling, off lease storage and measurement is to reduce operating costs for storage and treating, thereby extending the economic life of each well. Without approval for utilizing existing batteries on adjacent leases, it will become necessary to build separate facilities for each well. This will greatly increase costs and shorten the economic life of the wells.

Because working interests for the wells are different, oil from each of the wells will be measured by positive displacement temperature compensated metering equipment prior to surface commingling. Gas from the wells will also be metered separately. This metering will ensure that all production from each of the wells is equitably accounted for with no significant effect on your revenue. The production is from the same producing zone which is the Canyon.

In accordance with the Oil Conservation Division Rules 303-B, 309-B and 309-C, the following diagrams and maps are attached for your information:

- |                |  |
|----------------|--|
| Attachment II  | A map showing the location of the wells.   |
| Attachment III | A diagram of the proposed measurement equipment, separators and storage tanks in accordance with the "Manual of Installation and Operation of Commingling Facilities". |
| Attachment IV  | Notification of working interest, royalty interest and overriding royalty interest owners.   |
| Attachment V   | Notification to the Bureau of Land Management.   |

If you should have any questions or need further information, please give me a call at (505) 748-4178 (direct line).

Thank you for your cooperation.

Sincerely,

Pamela S. Evans  
Production Clerk
