Attention: Mr. William J. LeMay - Director

Dear Mr. LeMay:

Chevron U.S.A., Inc. respectfully requests administrative approval for surface commingling of the production from the three above described wells.

Monument "14" State #2 is completed in North Monument Abo. The IP was 36 bopd, 143 bwpd, and 16 mcfpd. The API gravity is 40.4° at 60° F. The Monument "23" State #5 is completed in North Monument Abo. The IP was 32 bopd, 28 bwpd, and 20 mcfpd. The API gravity is 41.5° at 60° F. The Monument "23" State #6 is completed in North Monument Abo. The IP was 78 bopd, 32 bwpd, and 80 mcfpd. The API gravity is 41.9° at 60° F.

The commingling of these three wells will allow the producing of the wells with one battery at a savings of approximately \$50,000. The oils are from the same zone and will be compatible. The value of the commingled oil will be the same as the individual oils. The working interest owners and royalty owners are the same on the two leases. Attached is a schematic diagram of the production facility.

If you have any questions, or if you require further information, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

Attention: Mr. Pete Martinez

Gentlemen:

Enclosed herewith for the Land Commissioner's approval is a surface commingling application covering the above captioned wells. I have also enclosed a \$30.00 check which covers the application fee in this regard.

Chevron's application entails the commingling of Abo production from Monument "14" State #2, Monument "23" State #5, and Monument "23" State #6. Monument "14" State #2 is located on State of New Mexico Lease #E-7419; Monument "23" State #5 and Monument "23" State #6 are located on State of New Mexico Lease #B-230. The tank battery facility site wherein said production will be commingled is located on State of New Mexico Lease #E-7419 in the NE ¼ of Section 14, T-19-S, R-36-E, N.M.P.M., Lea County, New Mexico. All three wells are operated by Chevron U.S.A., Inc.

If you have any questions, or if you require further information, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

Attention: Mr. William J. LeMay - Director

Dear Mr. LeMay:

Chevron U.S.A., Inc. respectfully requests administrative approval for surface commingling of the production from the three above described wells.

Previous approval was granted to commingle Monument "12" State #3 and Monument "14" State #2 (copy attached); following construction of a new battery, the two wells are now producing into separate batteries.

Monument "23" State #5 and Monument "23" State #6 are now being completed. The oils from the three wells will be from the same zone and will be compatible; the value of the oil will be the same as the individual oils. The working interest owners and royalty owners are the same on the two leases.

If you have any questions, or if you require further information, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

A handwritten signature in black ink that reads "J. K. Ripley". The signature is written in a cursive style with a large, prominent "J" and "R".
