Re: Amended Surface Commingling Application  
New Mexico 'S' State Lease  
Section 2-22S-37E, Wells Nos. 7 and 30  
Blinebry and Drinkard Pools  
Lea County, New Mexico

Dear Mr. Correa:

We have received your letter of September 1, 1996, together with your application to amend your previously approved surface commingling application for the New Mexico 'S' State Lease.

We understand that the Well No. 7 (Blinebry Oil & Gas) and the Well No. 30 (Drinkard) will be added to your application.

Since it appears that there will be no loss of revenue to the State of New Mexico's beneficiaries from your proposed operation, the Commissioner of Public Lands hereby grants approval for surface commingling. Our approval is given with the understanding that the Commissioner of Public Lands reserves the right to amend or withdraw his approval, should this operation prove to be unprofitable to the state at any time in the future. Also, our approval is subject to like approval by the New Mexico Oil Conservation Division.

Please submit a \$30.00 filing fee.

Please submit a copy of the approved Oil Conservation Division Order to this office.

Exxon Company, USA
