RE: Surface Commingling, Lease Commingling,
Pool Commingling, Off-Lease Storage
and Measurement

96316

Penasco Draw Wolfcamp Pool
Und. Eddy Group 2 (Wolfcamp) Pool
Eddy County, New Mexico

66052

Dear Ben:

Yates Petroleum Corporation respectfully requests administrative approval for surface commingling, lease commingling, pool commingling, off-lease storage and measurement for the following wells:

Scout EH Federal #5
1980' FNL & 1980' FWL
Unit F, SENW
Section 34-T18S-R25E
Eddy County, New Mexico
Lease No.: LC-067136
Und. Eddy Group 2 (Wolfcamp) Pool

Scout EH Federal Com #3
660' FNL & 1980' FEL
Unit B, NWNE
Section 34-T18S-R25E
Eddy County, New Mexico
Lease No.: LC-067136/CA No.: NMNM92014
Penasco Draw Wolfcamp Pool

Scout EH Federal Com #6
1980' FNL & 1980' FEL
Unit G, SWNE
Section 34-T18S-R25E
Eddy County, New Mexico
Lease No.: LC-067136/CA No.: NMNM92014
Penasco Draw Wolfcamp Pool

The production from the Scout EH Federal Com #3 and the Scout EH Federal Com #6 is transported prior to measurement to a common tank battery located at the Scout EH Federal #5 location (SENE of Section 34-T18S-R25E). A map labeled Attachment I is attached for your information.

Surface Commingling, Etc.:

Page 2:

May 20, 1996

The purpose of this off-lease storage and surface commingling is to reduce operating costs for storage and treating, thereby extending the economic life of each well. Without approval for utilizing existing batteries on adjacent leases, it will become necessary to build separate facilities for each well. This will greatly increase costs and shorten the economic life of the wells.

Because working interests for the wells are different, oil from each of the wells will be measured by positive displacement, temperature compensated metering equipment prior to surface commingling. Gas from the wells will also be metered separately. This metering will ensure that all production from each of the wells is equitably accounted for with no significant effect on your revenue. The production is from the same producing zone which is the Wolfcamp.

In accordance with the Oil Conservation Division's Rules 303-B, 309-B and 309-C, the following diagrams and maps are attached for your information:

Attachment II	A diagram of the proposed measurement equipment, separators and storage tanks in accordance with the "Manual for Installation and Operation of Commingling Facilities".
Attachment III	Notification of working interest, royalty interest and overriding royalty interest owners
Attachment IV	Notification to the Bureau of Land Management

If you should have any questions or need further information, please give me a call at 505-748-4205 (direct line).

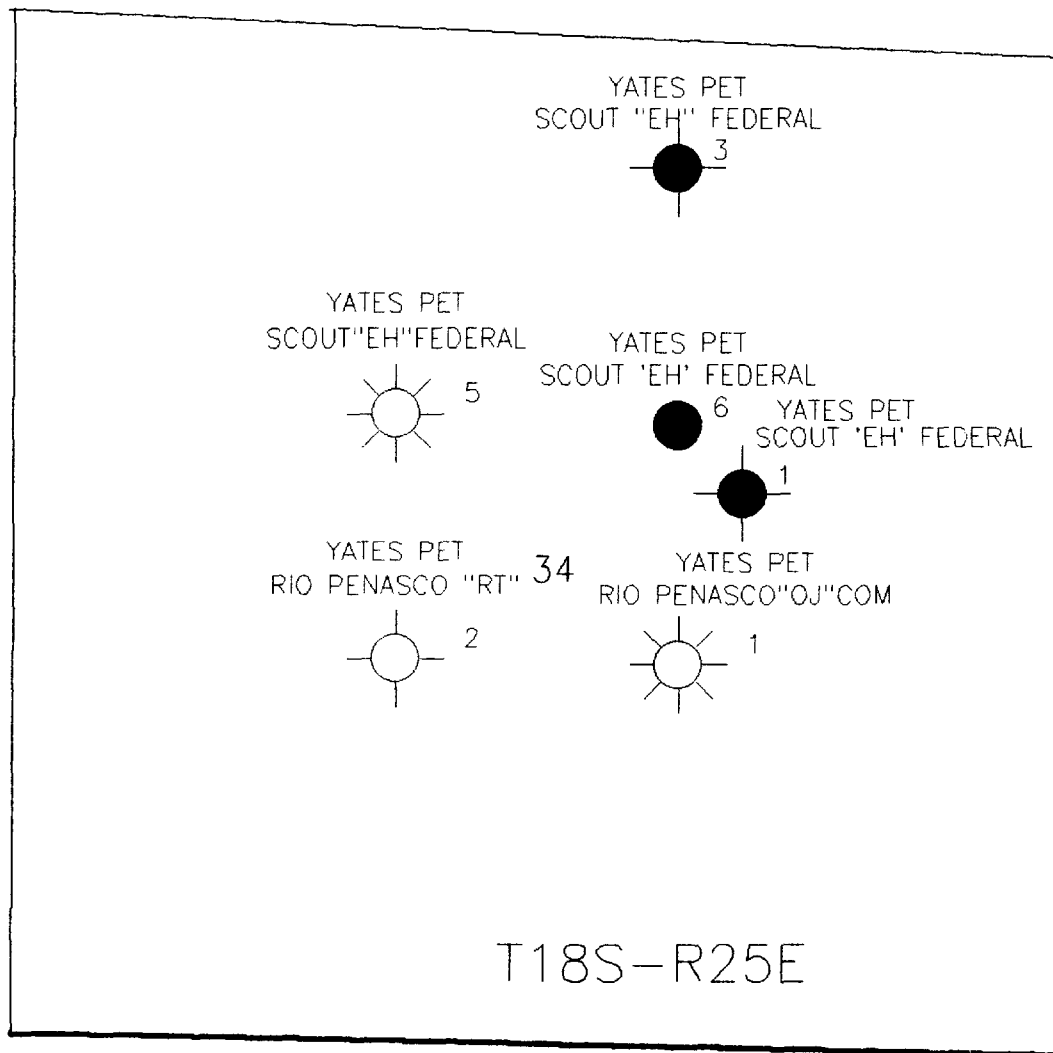

Thank you for your cooperation.

Sincerely,

Rusty Klein
Production Clerk

APPLICATION FOR SURFACE COMMINGLING, LEASE COMMINGLING,
POOL COMMINGLING, OFF-LEASE STORAGE AND MEASUREMENT

Bureau of Land Management
620 E. Greene Street
Carlsbad, NM 88221-1778

Yates Petroleum Corporation is requesting approval for surface commingling, off-lease storage and measurement, etc. of hydrocarbon production from the following wells and formation:

Scout EH Federal Com #3, NWNE of Section 34-T18S-R25E, Lease No. LC-067136,
CA No. NMNM92014 - Wolfcamp Formation
Scout EH Federal Com #6, SWNE of Section 34-T18S-R25E, Lease No. LC-067136,
CA No. NMNM92014 - Wolfcamp Formation

with hydrocarbon production from the following well and formation:

Scout EH Federal #5, SENW of Section 34-T18S-R25E, Lease No. LC-067136 -
Wolfcamp Formation

Production from the wells involved is as follows:

Scout EH Federal #5	79 BOPD, 637 MCF, 46.2 gravity
Scout EH Federal Com #3	10 BOPD, 50 MCF, 46.2 gravity
Scout EH Federal Com #6	5 BOPD, 30 MCF, 46.2 gravity

The proposed operation is described in detail on the attached site security diagram. Also enclosed is a map showing the location of the wells.

The storage and measuring facility is located in the SENW of Section 34-T18S-R25E (Scout EH Federal #5 battery) on Lease No. LC-067136, Eddy County, New Mexico.

Oil is measured by positive displacement, temperature compensated metering equipment. Gas is also metered separately.

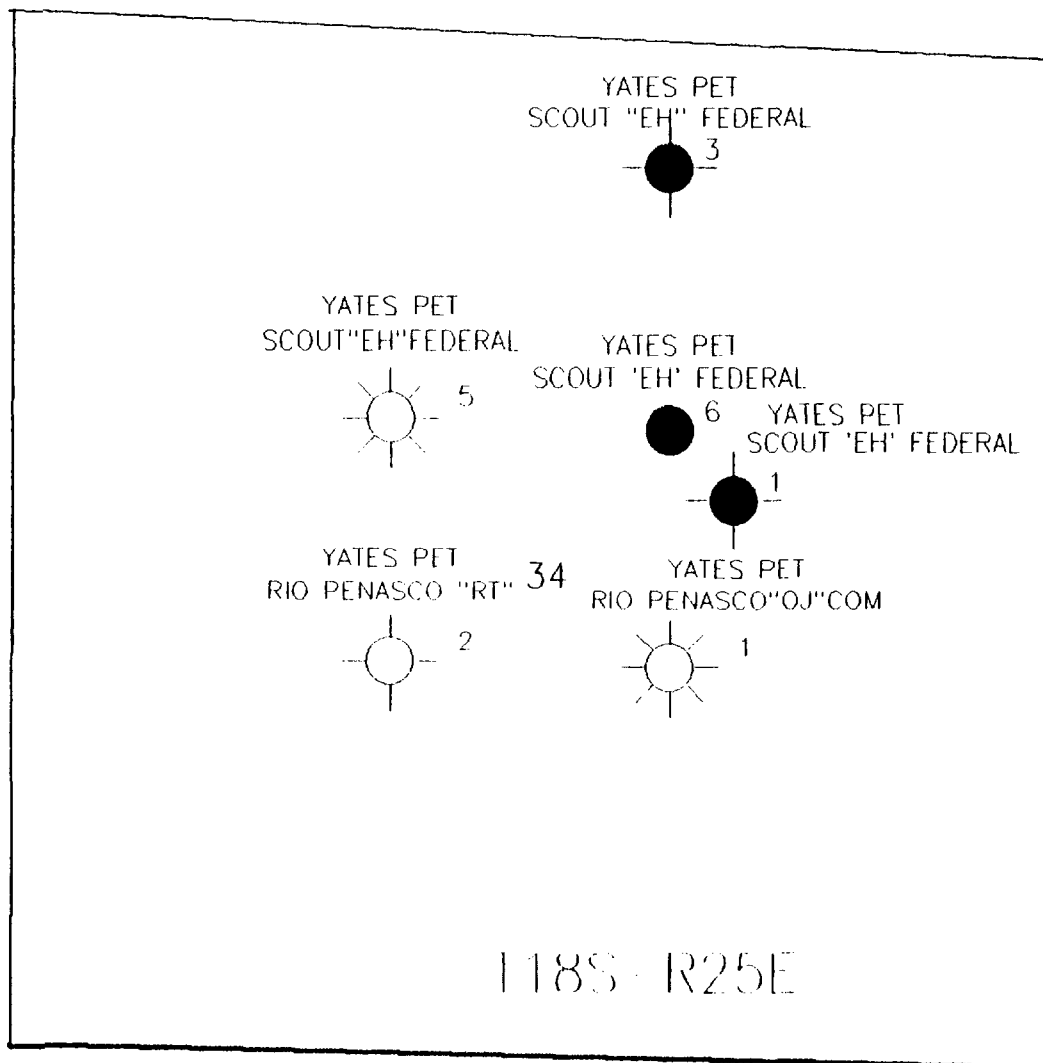

The working interest, royalty interest and overriding royalty interest owners have been notified of this proposal.

The proposed commingling of production is in the interest of conservation and will not result in reduced royalty or improper measurement of production.

The proposed commingling is necessary for continued operation of the above referenced leases.

We understand that the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument. And, we will submit within 30 days an application for right-of-way approval to the BLM's Realty Section in your office if we have not already done so.
