We understand that production from the New Mexico Q State Well #4 lease will be metered separately from the other commingled production.

Since it appears that there will be no loss of revenue to the State of New Mexico as a result of your proposed operation, your request is hereby approved. Any deviation from the substance of your request will be sufficient grounds for rescinding our approval. Our approval is subject to like approval by the New Mexico Oil Conservation Division.

Since the above-mentioned wells are utilizing the tank battery on Lease B-1056-2, a right-of-way easement may be required. Please contact Ms. Debra Padilla of our Right-of-Way Section for further information regarding this easement. Ms. Padilla's telephone number is 827-5729.
