RE: APPLICATION TO ADMINISTRATIVELY CHANGE AMENDED  
COMMINGLING ORDER PLC-102 DATED OCTOBER 6, 1993

Maralo, Inc., requests approval to administratively change the above referenced commingling order by deleting the well designations in the lease names.

The original application and the above order are worded to include the well numbers in the lease descriptions. Since commingling authority exceptions are granted by the Division Director by lease, and because there is a second well currently being drilled on the Corbin "13" A Federal lease, please delete the well numbers from the lease names in Amended Commingling Order PLC-102.

Sincerely,

A handwritten signature in cursive script that reads "Dorothea Owens".
