Re: Application for Surface Commingling - Skaggs and Warren McKee Area

Dear Mr. LeMay,

Amerada Hess Corporation respectfully requests administrative approval to surface commingle oil production from the Amerada Hess operated Warren McKee Unit (WMU), the Fred Turner 'A' No.15, the Mary J. Raley No. 2, and the Mary J. Raley 'A' No. 1 at the WMU and F. Turner 'A' Production Facility located in unit letter I Sec. 18, T20S, R38E, Lea County, New Mexico. This request is required due to the desire to handle production from multiple pools underlying multiple leases in a single marketing facility in exception to Rule(s) 303 and 309. AHC's request is based on simplification and minimization of the number of surface facilities required for production.

AHC distributes 100% of the royalty/ore
as to casinghead gas. As to oil
side P.M. does not make 100% distributions
for production.
Since we pay net revenue to all well owners, they should be able to use their divisions of
the 50% in P.M. & O.M. owners. See above.
