Re: Application for Surface Commingling - Skaggs and Warren McKee Area

Dear Mr. LeMay,

Amerada Hess Corporation respectfully requests administrative approval to surface commingle oil production from the Amerada Hess operated Warren McKee Unit (WMU), the Fred Turner 'A' No.15, the Mary J. Raley No. 2, and the Mary J. Raley 'A' No. 1 at the WMU and F. Turner 'A' Production Facility located in unit letter I Sec. 18, T20S, R38E, Lea County, New Mexico. This request is required due to the desire to handle production from multiple pools underlying multiple leases in a single marketing facility in exception to Rule(s) 303 and 309. AHC's request is based on simplification and minimization of the number of surface facilities required for production.
